The Enclosures referred to in the Agenda are available for inspection at each of the three Public Libraries in Fairfield, Fairfield Public Schools' website http://www.fairfieldschools.org/ and the Education Center, 501 Kings Highway East.

THE PUBLIC IS REQUESTED TO SILENCE DEVICES FOR THE DURATION OF THE MEETING

Board of Education, Fairfield Public Schools 501 Kings Highway East, 2nd Floor Board Conference Room, Fairfield, CT

Tuesday, April 8, 2014 REGULAR MEETING 7:30 P.M.

- 1. Call to Order and Roll Call
- 2. Pledge of Allegiance
- 3. Approval of Minutes
 - A. Approval of Minutes of March 11, 2014

Recommended Motion:

"that the Board of Education approve the Minutes of the Regular

Meeting of March 11, 2014"

(Enclosure No. 1)

B. Approval of Minutes of March 18, 2014

Recommended Motion:

"that the Board of Education approve the Minutes of the Special

Meeting of March 18, 2014"

(Enclosure No. 2)

4. Student Reports

Fairfield Ludlowe High School Student Liaison:

Mr. Billy Moeder, Mr. Ethan King

Fairfield Warde High School Student Liaisons:

Ms. Danielle Clarke, Ms. Carley Strachan,

Ms. Acacia Longley

- 5. Board Committee/Liaison Reports
- 6. Superintendent's Report
 - A. Review of Quarterly Financial Update through March 31, 2014, Ms. Munsell
- 7. Old Business
 - A. Approval of High School Grades 11-12 Math Curriculum

 Recommended Motion: "that the Board of Education approve the High School Grades 11-12

 Math Curriculum"
 - B. Approval of Pre-Calculus Resource

<u>Recommended Motion</u>: "that the Board of Education approve the <u>Glencoe Pre-Calculus</u>:

<u>Common Core Edition</u> text as outlined in the February 14, 2014

memo from Dr. Boice"

C. Approval of Policy #5519 Students – Wellness
Recommended Motion: "that the Board of Education approve Policy #5519 Students –
Wellness"

8. New Business

A. Establish Date and Time of Fairfield Ludlowe High School and Fairfield Warde High School Graduation

Recommended Motion: "that the Board of Education establish June 18 at 6:00 p.m. as the

date and time of graduation for Fairfield Ludlowe High School and

Fairfield Warde High School Class of 2014"

B. Presentation and Submission Approval of the Teacher Evaluation Plan

Recommended Motion: "that the Board of Education approve the submission of the Fairfield

Teacher Evaluation Plan to the CT State Department of Education"

(Enclosure No. 3)

C. Approval of RYASAP 2014 Profiles of Student Life Survey

Recommended Motion: "that the Board of Education approve student participation in the

RYASAP 2014 Profiles of Student Life Survey"

(Enclosure No. 4)

9. Public Comments and Petitions

During this period the Board will hear comments and receive petitions from any citizen present at the meeting. Any single presentation must be limited to two minutes, and audio-visual equipment cannot be used without the advance authorization of the Chairman. The Board will not hear comment on individual personnel matters or comments addressed to a specific member(s) of the Board. Decorum will be enforced. Citizens are asked to comment on any voting item at the time the item is under consideration by the Board.

10. Open Board Comment

11. Adjournment

Recommended Motion: "that this Regular Meeting of the Board of Education adjourn"

CALENDAR OF EVENTS

April 22, 2014	Board of Education Special Meeting/Executive Session	7:30 p.m. 501 Kings Highway East Superintendent's Conference Room
May 6, 2014	Board of Education Regular Meeting	7:30 p.m. 501 Kings Highway East 2 nd Floor Conference Room

RELOCATION POLICY NOTICE

The Fairfield Public Schools System provides services to ensure students, parents and other persons have access to meetings, programs and activities. The School System will relocate programs in order to ensure accessibility of programs and activities to disabled persons. To make arrangements please contact Pupil & Special Education Services, 501 Kings Highway East, Fairfield, CT 06825, Telephone: (203) 255-8379

VOTING SUMMARY

Regular Meeting Notes Fairfield BoE; March 11, 2014

Call to order of the Regular Meeting of the Board of Education and Roll Call

Chairman Philip Dwyer called the Regular meeting to order at 7:34PM. Present were members Eileen Liu-McCormack (arrived 7:40), John Convertito, Donna Karnal, Jessica Gerber, Philip Dwyer, Paul Fattibene, Jennifer Maxon-Kennelly, John Llewellyn and Marc Patten. Others present were Dr. Title, members of the central office leadership team, student representatives Danielle Clarke, Acacia Longley, Ethan King and Bill Moeder and approximately 20 members of the public.

Approval of Minutes

Approval of Minutes of March 4, 2014

Mrs. Maxon-Kennelly moved/Mrs. Gerber seconded the recommended motion, "that the Board of Education approve the Minutes of the Special Meeting of March 4, 2014." Motion passed 8-0-1 (Ms. Karnal abstained).

Old Business

Approval of Policy 0100, Fairfield Public Schools Mission, Goals, Objectives: Mission Statement

Mrs. Maxon-Kennelly moved/Mrs. Gerber seconded the recommended motion, "that the Board of Education approve Policy 0100 as recommended." Motion passed 9-0.

Approval of Policy 0110, Fairfield Public Schools, Goals, Objectives: Long-Term Goal

Mrs. Maxon-Kennelly moved/Mr. Patten seconded the recommended motion, "that the Board of Education approve Policy 0110 as recommended." Motion passed 9-0.

Approval of Policy 0200, Fairfield Public Schools, Goals, Objectives: Educational Goals.

Mrs. Maxon-Kennelly moved/Mrs. Liu-McCormack seconded the recommended motion, "that the Board of Education approve Policy 0200 as recommended." Motion passed 9-0.

Amend the 2014-2015 Calendar

Mrs. Maxon-Kennelly moved/Mrs. Gerber seconded the recommended motion, "I move to amend the motion relating to the 2014-2015 school calendar, adopted at the December 10, 2013 meeting, by substituting the Superintendent's recommended 2014-2015 calendar, Enclosure No. 2, for the Board of Education's adopted 2014-2015 calendar, Enclosure No. 3"

Mr. Convertito made a point of order to say that the motion should be amended to include the words "rescind and" just prior to the word "amend". Mr. Convertito made a friendly amendment to change the motion to read, "I move to rescind and amend the motion relating to the 2014-2015 school calendar, adopted at the December 10, 2013 meeting, by substituting the Superintendent's recommended 2014-2015 calendar, Enclosure No. 2, for the Board of Education's adopted 2014-2015 calendar, Enclosure No. 3." The Board accepted the friendly amendment. The amended motion passed, 7-2 (Mr. Convertito, Mrs. Gerber, Mr. Dwyer, Mr. Fattibene, Mrs. Maxon-Kennelly, Mr. Llewellyn, Mr. Patten in favor; Mrs. Liu-McCormack and Ms. Karnal against).

Approval of Minutes of January 14, 2014

Mrs. Gerber moved/Mrs. Maxon-Kennelly seconded the recommended motion, "that the Board of Education approve the Minutes of the regular Meeting of January 14, 2014." Motion passed, 8-0 (Mrs. Liu-McCormack declined to vote).

New Business

Approval of Educational Specifications for Mill Hill Elementary School Re-Roofing Project

Mrs. Gerber moved/Mr. Convertito seconded the recommended motion "that the Board of Education approve the Mill Hill Educational Specifications dated 2/27/2014, for the Mill Hill Elementary School Re-Roofing Project." Motion passed, 9-0

Mr. Llewellyn moved/Ms. Karnal seconded to suspend the rules to go beyond 11PM. Motion passed 9-0.

Adjournment

Ms. Karnal moved/Mr. Convertito seconded the recommended motion "that this Regular Meeting of the Board of Education adjourn". Motion passed 9-0. Meeting adjourned 11:32PM.

Detailed Minutes:

Chairman Philip Dwyer called the Regular Meeting to order at 7:34PM. Present were members Eileen Liu-McCormack (arrived 7:40), John Convertito, Donna Karnal, Jessica Gerber, Philip Dwyer, Paul Fattibene, Jennifer Maxon-Kennelly, John Llewellyn and Marc Patten. Others present were Dr. Title, members of the Central Office Leadership Team, student representatives Danielle Clarke, Acacia Longley, Ethan King and Bill Moeder and approximately 20 members of the public.

Mr. Dwyer led the Board and the audience in the Pledge of Allegiance and received unanimous Board consent in allowing Student Reports as the first agenda item.

Student Reports

Mr. Moeder and Mr. King reported for Fairfield Ludlowe High School (FLHS): Congratulations to Annie Moeder for receiving the FCIAC Scholar/Athlete Award, Gymnastics placed second in FCIACs, the senior class recently modeled for Project Runway, the AP course test registration is underway, the SBAC testing and battle of the Houses has been moved to May, the sophomore dance will be held this Friday, and spring sports begin in 2 weeks.

Ms. Clark and Ms. Longley reported for Fairfield Warde Highs School (**FWHS**): Sophomores start CAPT Science tests this week, Girls and Boys Basketball won against FLHS, Boys Hockey plays tonight against Amity, the Dance Team won FCIAC States, Girls Skiing won States for the 4th consecutive year, congratulations to Ahmed Hourani for winning FCIAC States in Wrestling, the orchestra concert is tonight, the choir will have a concert off-site in March, rehearsals are ongoing for the May 2, 3 and 4 show "Merrily We Roll Along", and the freshman/sophomore dance is this Friday.

Chairman Dwyer took a moment of personal privilege and asked the Board and audience for a moment of silence in memory of faculty member Rick Natale and FWHS student Katherine O'Neill who both passed away over the weekend.

Presentations

Math Curriculum Grades 11-12

Dr. Boice stated there are few changes in the rigorous curriculum for Algebra 2 and above. Dr. Rasmussen presented the Grades 11-12 Math Curriculum overview via Powerpoint, illustrating the curriculum, improvements to the curriculum documents, the resource search process, and next steps. Dr. Rasmussen stated that the curriculum was last reviewed in 2006, and courses need to be aligned to the Connecticut Core Standards; the curriculum was developed by research and review of Connecticut's Core Standards and other standards after which it was organized into units of study; parent

focus groups were consulted; and feedback was elicited from the community, former students, a Fairfield University math professor, and the district level Curriculum Council.

Several teachers spoke about the curriculum enhancements and changes: FLHS Algebra Teacher, Ms. Nova-Robison presented Algebra 2; FWHS Calculus Teacher, Mr. Smoler, presented Pre-Calculus; and FLHS Teacher, Mr. Mirrer, presented Financial Algebra.

Dr. Rasmussen recommended maintaining current resources for Algebra 2, Calculus, Financial Algebra, Modeling/Trigonometry, and Statistics; and recommended the Glencoe <u>Common Core Pre-Calculus</u> text for Pre-Calculus; he reviewed the anticipated costs associated with the Pre-Calculus resource (\$51,200), the Algebra 2 resource 'holding cost' (\$75,000) and summer work (\$10,100), totaling \$136,300.

Ms. Karnal asked about the resources and why so much time was spent on checking and savings accounts in the Financial Algebra course. Dr. Rasmussen stated that the resources are the Pre-Calculus text and an Algebra 2 text 'hold' for next year; teacher feedback was the reason for the amount of time given to checking and savings in Financial Algebra; Dr. Boice stated that teachers have flexibility to shorten units.

In response to Mr. Llewellyn, Dr. Boice stated that updated numbers to the upper level math chart, to include Geometry, will be provided.

Board discussion followed on the sequencing of math courses as students progress from elementary to secondary. Dr. Boice stated that the chart explaining the math sequence was complicated, and the new information was an effort to make it simple and direct. Mr. Llewellyn requested clarification on grade 5 and 6 transition requirements, and asked why there was a test requirement change. Dr. Boice responded that the curriculum has changed to align to the Common Core; while the achievement test has changed, the requirements have not; it is yet to be determined whether the SBAC results will be included; other changes are the use of the Progress Report in the elementary school and teacher recommendations; parents can always request reconsideration.

Mr. Llewellyn stated that his documentation, as provided, showed that students must meet all 6 indicators; Dr. Rasmussen explained that the qualifying transition criteria from grade 5 to grade 7 is different than the grade 5 to 6 transition. Dr. Boice stated that new articulation documents clearly state the requirements; a question was raised as to whether the Board received the most updated version. Mr. Llewellyn requested a venn diagram of current and past methodology to show where students land with old and new requirements; Dr. Boice said that she would do that but stressed that the goal is to place students where they belong and can be successful.

In response to Mr. Patten, Ms. Nova-Robison stated that Algebra 31 is an accelerated class for Calculus-bound students; the difference in number of instructional weeks is to account for flexibility in covering topics; the class may study Calculus when all topics have been covered. Dr. Rasmussen stated that students may choose to be in Honors, and the \$75,000 Algebra 2 Resource 'hold' cost is to purchase new Algebra 2 books next year.

Board discussion followed on the sequencing of Algebra 2, and the course standards. Mrs. Liu-McCormack stressed her concern that the curriculum should expose students to content, and that STEM jobs require students to be pushed earlier. Dr. Boice clarified that the curriculum provides students with opportunities to excel; it would be a grave disservice to place students into a course they are not ready for. Mr. Dwyer requested that this topic be discussed at a later time to allow the Board to move forward and Mrs. Maxon-Kennelly stated that while sequencing is an excellent topic, she requested fellow Board members concentrate on agenda items and not be sidetracked.

In response to Board questions, Drs. Boice and Rasmussen stated:

- correct articulation documents will be provided to the Board
- examples will be provided of areas that are excelling and lacking

- the Financial Algebra course includes algebraic reasoning
- the shift to the Common Core allows for higher standards to be implemented
- · teachers have curriculum delivery flexibility with pacing
- review is embedded and can occur throughout the year
- the professional development guides provide preparation materials for implementation
- 'next steps' on page 11 of the presentation includes common assessments that are used to measure student achievement in terms of the curriculum and teacher pacing and delivery of the curriculum
- teachers requested a one book approach in Pre-Calculus
- it is good instructional practice to provide review immediately prior to the content that will be taught, as proposed in Algebra 2 and Pre-Calculus

Mr. Llewellyn requested that pacing be on the next agenda.

Approval of Minutes

Approval of Minutes of Special Meeting of March 4, 2014

Mrs. Maxon-Kennelly moved/Mrs. Gerber seconded the recommended motion, "that the Board of Education approve the Minutes of the Special Meeting of March 4, 2014" Motion passed 8-0-1 (Ms. Karnal abstained)

Board Committee/Liaison Reports

Mrs. Maxon-Kennelly stated that the PTA Council will provide a community service grant for interested schools and PTAs; applications should be submitted prior to April 7.

Superintendent's Report

Update on the 2013-2014 Operating Budget

Dr. Title stated that there is no change in status from last week and that there was a productive session with the Board of Finance (BOF) to end the budget in the black.

Board discussion followed when Mr. Llewellyn stated he would like to recommend a motion to obtain monthly financial reports. Chairman Dwyer ruled that no motion would be made after which Mr. Llewellyn requested a clarification from Mr. Fattibene; Mr. Fattibene agreed with Chairman Dwyer; he stated that adding an agenda item requires 2/3 vote, but added that closer supervision over the budget may be required.

Mr. Dwyer stated he received assurance from the Town that the BOE budget would be balanced, and that the Superintendent has been providing updated information on a regular basis. Dr. Title stated that a regular quarterly report will be presented at the next meeting, and that moving to monthly financial reports may require input from the Policy Committee since the Board had previously voted to receive quarterly financial reports.

Old Business

Approval of Policy 0100, Fairfield Public Schools Mission, Goals, Objectives: Mission Statement

Mrs. Maxon-Kennelly moved/Mrs. Gerber seconded the recommended motion, "that the Board of Education approve Policy 0100 as recommended"

The Board agreed to hear information on all three policies at once.

Mrs. Maxon-Kennelly provided some background on the process of updating the Fairfield Public Schools' mission statement, long-term goal, and educational goals. Mrs. Brand, former BOE member and Chair of the Goals Advisory Committee, explained how input from community members and administrators was solicited; the hours spent in review meetings; the process to forward to Policy Committee, and finally to the Board for approval. Mrs. Brand stated the Policy Committee did not change the content, only the format.

Board discussion followed on Board goals, Superintendent goals, by-laws, strategic planning, and the hierarchy, timing and measurability of each. Mr. Dwyer added state law to the list; Dr. Title explained that the mission is the end result and the Board will approve a strategic plan embedded with the 'how;' the Board will decide on the process. Mrs. Brand added that the policy statement is meant to be broad. Mrs. Liu McCormack handed out a possible amendment to the policy and the Board discussed. Mrs. Maxon-Kennelly stated that if the Board wished to go in this direction it was up to them, but that she felt the policy before the Board addressed the issues covered in Mrs. Liu-McCormack's handout.

The public was invited to comment on all three policies.

Public comment:

Lisa Havey, Longview Avenue, spoke in support of these policies. Suzanne Miska, Rygate Road, spoke in support of these policies.

Motion passed 9-0.

Approval of Policy 0110, Fairfield Public Schools, Goals, Objectives: Long-Term Goal

Mrs. Maxon-Kennelly moved/Mr. Patten seconded the recommended motion, "that the Board of Education approve Policy 0110 as recommended." Motion passed 9-0.

Approval of Policy 0200, Fairfield Public Schools, Goals, Objectives: Educational Goals.

Mrs. Maxon-Kennelly moved/Mrs. Liu-McCormack seconded the recommended motion, "that the Board of Education approve Policy 0200 as recommended." Motion passed 9-0.

Amend the 2014-2015 Calendar

Mrs. Maxon-Kennelly moved/Mrs. Gerber seconded the recommended motion, "I move to amend the motion relating to the 2014-2015 school calendar, adopted at the December 10, 2013 meeting, by substituting the Superintendent's recommended 2014-2015 calendar, Enclosure No. 2, for the Board of Education's adopted 2014-2015 calendar, Enclosure No. 3"

Mrs. Maxon-Kennelly stated that she made the motion due to the lack of notification that this change would be made at the December meeting. Mrs. Gerber stated she seconded the motion after much thought, in order to accommodate the CES students and because the student athletes were not going to benefit from the earlier break, as she had originally thought.

Board discussion followed on the length of time between breaks, and testing schedules. Mr. Patten stated that after visiting PTAs, there was an overwhelming support for the original calendar as presented.

Mr. Convertito made a point of order to say that the motion should be amended to include the words "rescind and" just prior to the word "amend". Mr. Convertito made a friendly amendment to change the motion to read, "I move to rescind and amend the motion relating to the 2014-2015 school calendar, adopted at the December 10, 2013 meeting, by substituting the Superintendent's recommended 2014-2015 calendar, Enclosure No. 2, for the Board of Education's adopted 2014-2015 calendar, Enclosure No. 3." The Board accepted the friendly amendment. Mr. Llewellyn stated that he had supported the calendar approved in December, but understood that it would make things difficult for parents in Fairfield who teach in other neighboring districts with different break schedules.

Public comment:

Joseph Arrigo, Papermill Lane, spoke in support of the original calendar.

The amended motion passed, 7-2 (Mr. Convertito, Mrs. Gerber, Mr. Dwyer, Mr. Fattibene, Mrs. Maxon-Kennelly, Mr. Llewellyn, Mr. Patten in favor; Mrs. Liu-McCormack and Ms. Karnal against).

Approval of Minutes of January 14, 2014

Mrs. Gerber moved/Mrs. Maxon-Kennelly seconded the recommended motion, "that the Board of Education approve the Minutes of the regular Meeting of January 14, 2014"

Mr. Fattibene stated that FAIRTV did not record the votes for the meeting to adjourn, and the by-laws do not prevent meetings from being re-extended.

Motion passed, 8-0 (Mrs. Liu-McCormack declined to vote).

New Business

Approval of Educational Specifications for Mill Hill Elementary School Re-Roofing Project

Mrs. Gerber moved/Mr. Convertito seconded the recommended motion "that the Board of Education approve the Mill Hill Educational Specifications dated 2/27/2014, for the Mill Hill Elementary School Re-Roofing Project."

Public Comment: None

Motion passed, 9-0

Mr. Llewellyn moved/Ms. Karnal seconded to suspend the rules to go beyond 11PM. Motion passed 9-0.

First Reading of Policy #5519 Students – Wellness

Mrs. Maxon-Kennelly stated that this was in response to state statute, and Mrs. Parks stated that several state statute changes are incorporated in this policy.

Mrs. Liu-McCormack requested information on the hours allocated to health education and will clarify further with Mrs. Parks. Mr. Llewellyn requested information on physical education via a chart with columns showing Fairfield vs. the state.

Discussion on Board Goals

Mr. Dwyer referenced the March 4 memo regarding the Goals Process and requested Board input in writing. Mr. Llewellyn stated that he will be adding a few goals including ensuring compliance with all state statutes and laws, monthly financial reporting, and defining and quantifying goals.

Mrs. Liu-McCormack stated she will be adding a goal that will compare and update how time and resources are allocated in terms of subject matter.

Mr. Convertito stated he will add a goal to start a formula on a new high school schedule to coincide with the completion of FLHS construction.

Mr. Dwyer clarified that Board and district goals have been different in the past. Discussion followed on detailed goals, strategic planning, strategic initiatives and measurability.

Mrs. Liu-McCormack stated she will request an updated strategic profile.

Public Comments and Petitions

Mrs. Brand, Goals Advisory Chair, thanked the Board for their support; commented on meeting extensions, Board goals and academic goals.

Brittany Marson, FLHS student, commented that she has had several canceled classes due to lack of a substitute teacher.

Elizabeth Courtney, Acorn Lane, commented on the damage to asphalt curbs at Mill Hill School.

Suzanne Miska, Rygate Road, commented that she attended the recent Board of Finance meeting and asked for accountability.

Trish Donovan, Taintor Drive, commented on the Math parent focus group.

Dawn Llewellyn, Sturges Road, commented on the upcoming ELA curriculum and asked that grammar and vocabulary be taken into consideration.

Jeanne Pacewicz, Sigwin Drive, encouraged the Board to hold a SBAC informational session at night to help parents.

Christina Marson, North Cedar Road, commented on the Board having an open dialogue on opting out of the SBAC test.

Susan Brown, Pemburn Drive, echoed concerns regarding the SBAC field test and stated that Stefan Pryor may be bullying the district.

Open Board Comment

Mr. Llewellyn requested an open forum format for the SBAC presentation tomorrow, and stated that students opting out of the SBAC test should get instructional time.

Mrs. Maxon-Kennelly mentioned that several teams are participating in Odyssey of the Mind competition in Bristol.

Mrs. Gerber stated that she attended Project Runway at FLHS and it was wonderful to hear the senior students' accomplishments as they were being introduced.

Mrs. Liu-McCormack stated that she would be happy to circulate an article regarding the workshop instructional method.

Mr. Dwyer stated that the BOE has, in the past, returned a surplus to the Town; we are one Town and we do help each other; there will be a short Executive Session at 6:45 on Tuesday, March 18th to discuss collective bargaining and negotiations.

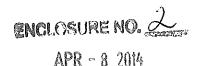

Mr. Patten stated that he attended 2 different PTA meetings and is amazed at the amount of parent involvement.

Adjournment

Adjournment

Ms. Karnal moved/Mr. Convertito seconded the recommended motion "that this Regular Meeting of the Board of Education adjourn". Motion passed 9-0. Meeting adjourned 11:32PM.

Jessica Gerber Fairfield Public Schools Board of Education Secretary

Special Meeting Notes Fairfield BoE; March 18, 2014

<u>Call to order of the Special Meeting of the Board of Education and Roll</u> Call

Chairman Philip Dwyer called the Regular meeting to order at 6:53PM. Present were members Eileen Liu-McCormack, John Convertito, Donna Karnal, Jessica Gerber, Philip Dwyer, Paul Fattibene, and Marc Patten. John Llewellyn and Jennifer Maxon-Kennelly were absent. Also present were Ann Leffert and Doreen Munsell.

Board Discussion Regarding Collective Bargaining Negotiations

John Convertito moved/Donna Karnal seconded the recommended motion: "that the Board of Education hereby moves to enter into Executive Session to discuss Collective Bargaining Negotiations" Motion passed 7-0.

The Board came out of Executive session at 7:33PM

<u>Adjournment</u>

Mr. Patten moved/Mr. Convertito seconded the recommended motion: "that this Special Meeting of the Board of Education adjourn" Meeting adjourned at 7:35PM.

FAIRFIELD PUBLIC SCHOOLS HUMAN RESOURCES OFFICE

April 3, 2014

Dear Board of Education Members:

The Fairfield Educator Evaluation Committee has been meeting since February to review the Fairfield Teacher Evaluation Plan. Just prior to our meetings, the State Board of Education adopted flexibility components to evaluation plans as recommended by the Performance Evaluation Advisory Council (PEAC). While the flexibility options were available for this current school year, the district committee elected to include these flexibility options with the complete recommendations for revision to our district plan for the 2014-2015 school year. I have included the following documents for your review:

- Draft Educator Professional Growth Plan
- · List of proposed changes from the previous document
- Memo from Sarah Barzee (SDE Chief Talent Officer) regarding the State BOE approved flexibilities

I will review the changes to our document at the Board of Education meeting on April 8. For your information, the current Teacher Evaluation Plan is available on the district website. The changes for 2014-2015, as recommended by our committee, reflect our belief that this evaluation plan should focus on an educator's continuous improvement by facilitating a culture of collaboration focused on professional learning. With your approval, I will then submit our revised plan to the Connecticut State Department of Education. They will be sure our plan complies with all the required guidelines related to teacher evaluation in Connecticut. Once approved by the State Department of Education, the plan will then come before you again for formal adoption at a June or August meeting. We are not recommending any changes to the Fairfield Administrator Evaluation Plan.

If you have any questions about the changes to the plan, please don't hesitate to contact me prior to the April 8 meeting. I look forward to our conversation.

Best regards,

ann Leffers

Proposed Changes to the Fairfield Teacher Evaluation Plan

(Recommended by Fairfield Educator Evaluation Committee)

- Title Page: Renamed "Educator Professional Growth Plan"
- Page 5: Emphasis on continuous improvement by facilitating a culture of collaboration focused on professional learning
- Page 7: Reflects change to singular Student Learning Objective (SLO) (state flexibility option)
- Page 8: General language to reflect time of year, not specific dates
- Pages 19/20: Change in language for number of observations (state flexibility option); feedback to teacher within one week of observation
- Page 21: Feedback language more reflective of process we use in Fairfield Public Schools
- Pages 24/25: Makes rating process for 40% Educator Performance and Practice area less cumbersome and more collaborative, while still relying on a mathematical rubric to determine the summative rating in this area
- Pages 28-31: Reflects one SLO

Moved lists of FPS assessments from SLO section to Indicators of Academic Growth and

Development (IAGD) section

Updated example chart

Lists state test exemption language for 2014-2015 (state flexibility option)

- Page 32: Added language to Mid-Year Conference section
- Pages 33-34: Lists state test exemption language for 2014-2015 (state flexibility option)
- Pages 36-38: Added charts for determining summative rating

STATE OF CONNECTICUT

Talent Office

DATE: February 10, 2014

SUBJECT: Update on Flexibilities to the Guidelines for Educator Evaluation (June 2012)

Dear Colleagues:

As you may be aware, on Wednesday, January 29, 2014, the Performance Evaluation Advisory Council (PEAC) reached consensus on the provision of flexibility regarding several components of the Connecticut Guidelines for Educator Evaluation (2012). Subsequently, on February 6, 2014, the State Board of Education (SBE) approved and adopted PEAC's proposed flexibilities with some minor edits. The final SBE version of the flexibility language is contained in the attached document. Please consult only this final version in considering and pursuing these flexibilities.

Local and regional school districts, in mutual agreement with their Professional Development and Evaluation Committees, may choose to adopt one or more of the following flexibility components. These flexibility components represent new and alternative minimum requirements within the Guidelines. Districts may opt to pursue variations upon these specific flexibilities so long as they satisfy the minimum requirements. Districts, with their Professional Development and Evaluation Committees, may apply for flexibility during the remainder of this academic year or for next year (or for both).

Adopted Flexibilities to the Guidelines for Educator Evaluation

- 1. Number of Student Growth Goals
- 2. Decoupling of State Test Data in 2014-2015
- 3. Number of Observations
- 1. The first area of flexibility relates to the number of goals/objectives educators are required to set. While the existing Guidelines allow for at least one (1) but no more than four (4) goals/objectives for student growth, the amendment clarifies and emphasizes that the minimum number of goals/objectives required for each educator can be **one (1).** For each goal/objective, each teacher, through mutual agreement with his/her evaluator must select multiple Indicators of Academic Growth and Development (IAGD).
- 2. The second area of flexibility pertains to the use of state standardized test data in compiling educators' summative ratings. As noted above, for each goal/objective, each teacher, through mutual agreement with his/her evaluator, will select Indicators of Academic Growth and Development (IAGD). One half (22.5%) of the IAGDs shall be based on available standardized state test data (CMT, CAPT or SBAC). However, pending federal approval, districts now have the option of decoupling state standardized test indicators from educator evaluation in 2013-2014 and in 2014-2015 school years.

Update on Flexibilities to the Guidelines for Educator Evaluation (June 2012) February 10, 2014 Page 2 of 3

3. The third and final area of flexibility addresses the specific requirements for the number of observations based on teachers' experience and performance ratings. PEAC recommended providing districts with the flexibility to reduce the number of required formal observations for teachers. Specifically, teachers who are not first- or second-year teachers and who receive and maintain an exemplary or proficient annual summative rating (or the equivalent annual summative rating in a pre-existing district evaluation plan) may receive a minimum of one (1) formal in-class observation at least every three years and three (3) informal in-class observations in all other years. In all years, at least one (1) review of practice is required. For non-classroom teachers, the above frequency of observations shall apply in the same ways, except that the observations need not be in-classroom (they shall instead be conducted in appropriate settings). Teachers with proficient or exemplary designations may receive a formal in-class observation if an informal observation or review of practice in a given year results in a concern about the teacher's practice.

In addition, the SBE approved language that addresses the use of data management systems as a part of the educator evaluation and support process in order to address system efficiencies and ensure confidentiality and security. While not a requirement, many districts have procured a data management system to assist with the management of evaluation data. On or before September 15, 2014, Professional Development and Evaluation Committees are responsible for reviewing feedback and reporting to their boards of education on the user experience and efficiency of the district's data management systems/platforms being used by teachers and administrators to manage evaluation plans. The data management systems/platforms shall be selected by boards of education with consideration given to the functional requirements/needs and efficiencies identified by professional development and evaluation committees.

For implementation of local evaluation and support plans for the 2014-2015 school year, and each year thereafter, educator evaluation and support plans shall contain guidance on the entry of data into a district's data management system/platform being used to manage/administer the evaluation and support plan and on ways to reduce paperwork and documentation while maintaining plan integrity.

Additional language has been added that addresses the security of identifiable student data, access of teacher or administrator data and the sharing or transference of individual teacher data as a part of the evaluation and support system.

All amendments are outlined in detail within the attached document, entitled, "Flexibilities to the Guidelines for Educator Evaluation." When you are able, please ensure that you review all language in the attached so as to ensure that you are familiar with all new provisions.

Additionally, in 2013-2014, the following educational entities were exempt from implementation of the new educator evaluation and support:

- Adult Education
- USD #1 and #2

Update on Flexibilities to the Guidelines for Educator Evaluation (June 2012) February 10, 2014
Page 3 of 3

- Approved Private Special Education Facilities
- Pre-K
- Central Office and Charter School administrators

Given their unique structures and considerations, PEAC recommended that the educators in the aforementioned educational entities receive an additional one year exemption from implementation of the Guidelines for Educator Evaluation (2012) in the 2014-2015 school year. However, those systems that are ready to proceed would be enabled and encouraged to conduct permissive pilots. The Connecticut State Department of Education (CSDE) will work with those districts to gather data about the pilot experience throughout the 2014-2015 school year.

Districts that wish to implement any of the approved flexibilities must convene their Professional Development and Evaluation Committee to consider the options and come to mutual agreement with their board of education. Per existing policy, if mutual agreement cannot be achieved, then pursuant to section 10-151b of the General Statutes, as amended by Public Act 13-245 section 1(b), "such board of education and such professional development and evaluation committee shall consider the model teacher evaluation and support program adopted by the State Board of Education." If the Professional Development and Evaluation Committee and local or regional board of education cannot mutually agree on the adoption of such model teacher evaluation and support program, the board of education may make the final determination. All changes to a district evaluation plan must be approved and adopted by the local or regional board of education.

To request new flexibility, please complete the "Flexibility Request Submission Form" (see attached) and submit it to the CSDE for review and approval at <u>SDE.SEED@ct.gov</u> by March 30, 2014. Please reference "{District Name}: Flexibility Amendments for 2013-2014" in the subject line. Once approved, you will receive notification to the email address provided on the attached submission form.

If you would like to review any aspect of these flexibilities, request explanations of the revised minimum requirements and discuss your possible variations upon them, or if you have general questions, please don't hesitate to reach out to the Talent Office Staff at 860-713-6868.

EDUCATOR EVALUATION AND DEVELOPMENT MODEL

Excellent schools begin with great school leaders and teachers. A strong body of evidence confirms that effective teachers are one of the most important school-level factors in student learning and effective leadership is an essential component of any successful school. The Fairfield Public Schools is committed to raising the overall quality of our teachers and administrators. The purpose of Fairfield's Educator Professional Growth Plan is to continuously improve teaching and learning by facilitating a culture of collaboration focused on professional learning. To accomplish this, supervision and evaluation must be a continuous, constructive and collaborative process among professional educators in a climate characterized by trust, support, clear expectations and the availability of appropriate resources and materials. We believe student achievement will improve because of the district's focus on teacher supervision, support and evaluation.

Our commitment to quality teaching calls us to set high standards for teacher performance, provide resources and training for professional growth, and use a model for teacher performance evaluation that focuses on the following objectives:

- Implementing a performance evaluation system that supports a positive working environment featuring communication between the educator and evaluator that promotes continuous professional growth and improved student outcomes.
- Promoting self-growth through a variety of opportunities such as goal setting, reflection, observations of practice, collaboration between educators and administrators and professional development plans that contribute to instructional effectiveness and overall professional performance.
- Providing timely, constructive feedback to teachers to improve the quality of instruction and ensure accountability for classroom performance and teacher effectiveness.
- Supporting teacher induction and professional development.
- Supporting collaborative teams and processes that contribute to successful achievement of goals and objectives defined in the school improvement plan.

Introduction

This document outlines Fairfield's Educator Professional Growth Plan, aligned with the Marzano Casual Teacher Evaluation Model (see Appendix E). This plan will be implemented beginning in the 2013-2014 school year.

Core Design Principles

The following principles are guiding features of the Fairfield Educator Evaluation Plan:

• Consider multiple, standards-based measures of performance

An evaluation system that uses multiple sources of information and evidence results in a fair, accurate and comprehensive picture of an educator's performance. The new model defines four categories of educator effectiveness: Student Learning (45%),

Educator Performance and Practice (40%), Parent Feedback (10%) and School-wide Student Learning (5%). These categories are grounded in research-based, national standards: Robert Marzano's *Causal Teacher Evaluation Model*; the Common Core State Standards, as well as Connecticut's standards: The Connecticut Common Core of Teaching (CCT); the Connecticut Framework K-12 Curricular Goals and Standards; the CMT/CAPT Assessments¹; and locally-developed curriculum standards.

• Promote both professional judgment and consistency

Assessing an educator's professional practice requires evaluators to constantly use their professional judgment. No rubric or formula, however detailed, can capture all of the nuances in how educators interact with students, and synthesizing multiple sources of information into performance ratings is inherently more complex than checklists or numerical averages. At the same time, educators' ratings should depend on their performance, not on their evaluators' biases. Accordingly, the model aims to minimize the variance between school leaders' evaluations of classroom practice and support fairness and consistency within and across schools.

• Foster dialogue about student learning

This model hinges on improving the professional conversation between and among educators and administrators who are their evaluators. The dialogue in the new model occurs more frequently and focuses on what students are learning and what educators and their administrators can do to support teaching and learning.

 Encourage aligned professional learning, coaching and feedback to support educator growth

Novice and veteran educators alike deserve detailed, constructive feedback and professional learning, tailored to the individual needs of their classrooms and students. This plan promotes a shared language of excellence to which professional learning, coaching and feedback can align to improve practice.

¹Connecticut Mastery Test (CMT): The CMT is the standard assessment administered to students in Grades 3 through 8. Students are assessed in the content areas of reading, mathematics and writing in each of these grades and science in grades 5 and 8. Connecticut Academic Performance Test (CAPT): The CAPT is the standard assessment administered to students in Grade 10. Students are assessed in the content areas of reading, mathematics, writing and science.

EDUCATOR EVALUATION SYSTEM

Evaluation and Support System Overview

The Fairfield Educator Evaluation Plan consists of multiple measures to paint an accurate and comprehensive picture of educator performance. All educators will be evaluated in four categories, grouped in two major focus areas: Educator Practice and Student Outcomes.

- 1. Educator Practice Related Indicators: An evaluation of the core instructional practices and skills that positively affect student learning. This focus area is comprised of two categories:
 - (a) **Observation of Educator Performance and Practice (40%)** as defined in the *Marzano Causal Teacher Evaluation Model*, which articulates four domains and sixty components of educator practice
 - (b) Parent Feedback (10%) on educator practice through surveys
- 2. Student Outcomes Related Indicators: An evaluation of educators' contribution to student academic progress, at the school and classroom level. This focus area is comprised of two categories:
 - (a) Student Growth and Development (45%) as determined by the educator's student learning objective (SLO) and Indicators of Growth and Development (IAGDs)
 - (b) Whole-school Measures of Student Learning as determined by aggregate student learning indicators (5%)

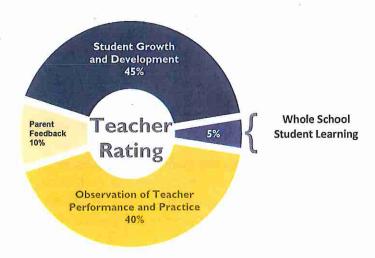

Scores from each of the four categories will be combined to produce a summative performance rating of Exemplary, Accomplished, Developing or Below Standard. The performance levels are defined as:

Exemplary - Substantially exceeding indicators of performance

Accomplished - Meeting indicators of performance

Developing – Meeting some indicators of performance but not others

Below Standard - Not meeting indicators of performance

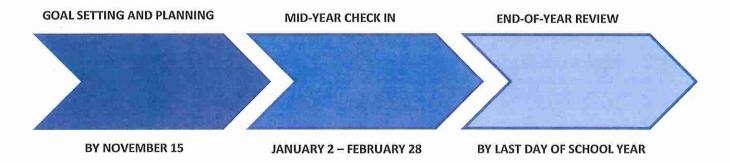

Orientation Programs

Educators and administrators need time to learn and understand the Fairfield Educator Professional Growth Plan. Information will be provided to educators as follows:

- Spring: Overview of changes to the Fairfield Educator Professional Growth Plan will be presented to all educators in Fairfield (depending on date of approval of any changes by the Connecticut State Department of Education).
- August: One (1) day of professional learning for administrators to be recalibrated to the model.
- Annually:
 - o Educators will receive orientation on the plan from their administrators at the beginning of the school year.
 - o Educators new to the district will participate in an orientation session about the plan during their three-day induction program in August.
 - The Fairfield Professional Learning Committee will review the Fairfield Educator Professional Growth Plan each year and make any recommended changes by April 1 of each school year.

Educator Evaluation Process and Timeline

The annual evaluation process between an educator and his/her primary evaluator is anchored by three performance conversations at the beginning, middle and end of the year. The purpose of these conversations is to clarify expectations for the evaluation process, provide comprehensive feedback to each educator on his/her performance, set development goals and identify development opportunities. These conversations are collaborative and require reflection and preparation by both the evaluator and the educator in order to be productive and meaningful.

Goal-Setting and Planning:

Timeframe: Target is October 15; must be completed by November 15

1. Orientation on Process—To begin the evaluation process, evaluators meet with educators, in a group or individually, to discuss the evaluation process and their roles and responsibilities within it. In this meeting, they will discuss any school or district priorities aligned with the School Improvement Plan that should be reflected in educator practice goals and student learning objectives (SLOs), and they will commit to set time aside for the types of collaboration required by the evaluation process. All educators will

be provided with materials on the evaluation process and will have the opportunity to review these materials at this meeting.

- 2. Educator Reflection and Goal-Setting—The educator examines student data, survey results, information from last year's educator evaluation and the Marzano Causal Teacher Evaluation Model to draft a proposed performance and practice goal(s), a parent feedback goal, a student learning objectives (SLO), and a whole-school learning indicator goal for the school year. The educator may collaborate in grade-level or subject-matter teams to support the goal-setting process.
- 3. Goal-Setting Conference—The evaluator and educator meet to discuss the educator's proposed goals and objectives in order to arrive at mutual agreement about them. The educator collects evidence about his/her practice and the evaluator collects evidence about the educator's practice to support the goal-setting process. Professional learning priorities will also be agreed upon. The evaluator may request revisions to the proposed goals and objectives. The goal-setting conference will take place between September 1 and October 15. If by October 15 there is no agreement between the evaluator and the educator, a second conference must take place so that the goal is written by November 15. All goals must be finalized by November 15.

Mid-Year Check-In:

Timeframe: January 2 - February 28

- 1. Reflection and Preparation—The educator and evaluator collect and reflect on evidence to date about the educator's practice and student learning in preparation for the check-in.
- 2. Mid-Year Conference—The evaluator and educator complete at least one mid-year checkin conference during which they review progress on educator practice goals, student learning objective (SLO) and performance on each to date. The mid-year conference is an important point in the year for addressing concerns and reviewing results for the first half of the year. Evaluators can deliver mid-year formative information on components of the evaluation framework for which evidence has been gathered and analyzed. If needed, educators and evaluators can mutually agree to revisions on the strategies or approaches used and/or mid-year adjustment of SLOs to accommodate changes (e.g., student populations, assignment). They also discuss actions that the educator can take and supports the evaluator can provide to promote educator growth in his/her development areas.

End-of-Year Summative Review:

Timeframe: must be completed by the last day of the school year

1. In preparation for the End-of-Year Conference, the educator will complete a Self-Assessment— The educator reviews all information and data collected during the year and completes a self-assessment for review by the evaluator. This self-assessment may focus specifically on the areas for development established in the goal-setting conference. A district form will be developed for educators to complete the self-assessment (See Appendix G).

- 2. In preparation for the End-of-Year Conference, the administrator will complete Scoring—The evaluator reviews submitted evidence, self-assessments and observation data to generate category and focus area ratings. The category ratings generate the final, summative rating. After all data, including state test data, are available, the evaluator may adjust the summative rating if the state test data change the student-related indicators significantly to change the final rating. Such revisions should take place as soon as state test data are available and before September 15.
- 3. End-of-Year Conference—The evaluator and the educator meet to discuss all evidence collected to date and to discuss category ratings. Following the conference, the evaluator assigns a summative rating and generates a summary report of the evaluation before the end of the school year.

Ensuring Fairness and Accuracy: Evaluator Training, Monitoring and Auditing

All evaluators are required to complete extensive training on the evaluation model. The Connecticut State Department of Education (CSDE) will provide districts with training opportunities and tools throughout the year to support district administrators and evaluators in implementing the model across their schools. Districts will adapt and build on these tools to provide comprehensive training and support to their schools and to ensure that evaluators are proficient in conducting educator evaluations. *Learning Sciences* is partnering with Dr. Robert Marzano and will be working with district administrators on inter-rater reliability. The district will provide yearly training for evaluators to ensure that evaluators demonstrate proficiency on an on-going basis in conducting educator evaluations.

At the request of a district or employee, the CSDE or a third-party designated by the CSDE will review evaluation ratings that include dissimilar ratings in different categories (e.g., include both *exemplary* and *below standard* ratings). In these cases, CSDE will determine a final summative rating.

In addition, CSDE will select districts at random annually to review evaluation evidence files for a minimum of two educators rated *exemplary* and two educators rated *below standard*.

SUPPORT AND DEVELOPMENT

As a standalone, evaluation cannot hope to improve teaching practice and student learning. However, when paired with effective, relevant and timely support, the evaluation process has the potential to help move educators along the path to exemplary practice.

Evaluation-Based Professional Learning

Throughout the Fairfield Educator Evaluation Plan, every educator will be identifying their professional learning needs in mutual agreement between the educator and his/her evaluator. This process serves as the foundation for ongoing conversations about the educator's practice and impact on student outcomes. The professional learning opportunities identified for each educator should be based on the individual strengths and needs that are identified through the evaluation process. The process may also reveal areas of common need among educators, which can then be targeted with school-wide professional development opportunities.

The Fairfield Educator Evaluation Plan is designed to increase student learning and promote educator competence and professional growth. Specifically, we believe that educators should regularly refine and renew their skills and knowledge. This is achieved through a continuous and systematic differentiated professional learning plan that has, as its foundation, district, building and individual goals and initiatives.

Yearly, each educator will develop individual student-centered and professional goals that link to a specific professional learning plan. These plans help to shape the professional development opportunities provided and supported at the building and/or district level.

Professional learning opportunities are developed that differentiate by experience level, grade configuration and content area, and are formatted based upon, but not limited to, the following:

- Curriculum Development Framework and Procedures
- Student work data
- Data team analysis of grade, school and district data
- Standardized assessments
- District assessments
- Educator and administrative feedback surveys
- District annual reports
- School improvement plans

Professional learning activities are regularly provided which bring together educators and the district's educator resource staff. During release-time and before/after school meetings there is extensive peer-provided professional learning. Fairfield has initiated a substantial array of differentiated educator staffing including language arts specialists, mathematics/science resource teachers, curriculum coordinators, curriculum liaisons and instructional improvement teachers. Each of these positions has peer professional learning as a major component of its job description.

An ongoing systematic process is in place by which educators evaluate Fairfield's professional learning offerings. This process aids in determining the content and direction of future building and district professional learning.

Listed below are a variety of additional professional learning opportunities available to the educators in the Fairfield Public Schools:

- Peer coaching
- Educator portfolios
- TEAM/Mentor training
- Collegial team projects
- Grade level release-time projects
- Study groups
- Conferences and seminars
- Curriculum committees
- Graduate courses
- Professional growth study/leaves

Improvement and Remediation Plans

If an educator's performance is rated as *developing* or *below standard*, it signals the need for the administrator to create an individual educator improvement and remediation plan. The improvement and remediation plan should be developed in consultation with the educator and his/her exclusive bargaining representative. Improvement and remediation plans must:

- Identify resources, support and other strategies to be provided to address documented deficiencies;
- Indicate a timeline for implementing such resources, support and other strategies, in the course of the same school year as the plan is issued; and
- Include indicators of success including a summative rating of *accomplished* or better at the conclusion of the improvement and remediation plan.

The Fairfield Educator Evaluation Plan has two (2) levels of support for educators whose performance is not up to expectations, (1) Structured Support Level and (2) Intensive Supervision Level.

Structured Support Level

The Structured Support Level provides staff members who are experiencing difficulty with greater support in order to be successful. It provides guided assistance to staff members with identified weaknesses.

If the evaluator has concerns about a staff member's performance and feels he or she needs greater support to be successful, he/she will notify the staff member that he/she is being placed on the Structured Support Level. The Superintendent and Director of Human Resources will be notified immediately when a staff member is placed on this level. A staff member may be placed on Structured Support at any time during the school year.

The Structured Support Level will include the following steps:

- <u>Notice</u> The primary evaluator will provide formal written notice of *developing or below standard* performance. This notice must be specific as to what the concern(s) is and why the staff member's performance is considered to be ineffective. This can occur at any time during the school year.
- <u>Target Setting</u> The primary evaluator has the responsibility of identifying the specific behaviors that the staff member must develop in order to demonstrate that he/she is effective in the areas that were considered *developing* or *below standard*.
- <u>Action Plan</u> An action plan that includes a timeline for remediation must be developed within ten days of notification (See Appendix I: Structured Support Initial Placement Form). Failure to conscientiously follow the action plan will result in placement to the Intensive Supervision Level.
- Assistance The evaluator is to offer reasonable assistance so that the staff member can improve his/her performance in the areas that were considered *developing* or *below standard*. The assistance may include, but is not limited to, positive suggestions, resource materials, professional development opportunities, referral to other individuals or peer coaching. A time frame which allows the staff member adequate opportunity to improve his/her performance must be established.
- Resolution A written statement must be included on the Structured Support End of Year
 Evaluation Form (see Appendix J), indicating that performance in the areas considered to be
 developing or below standard have improved and will continue to be monitored through the
 Fairfield Educator Evaluation Plan. If the staff member does not receive a summative rating of
 accomplished or better at the conclusion of the Structured Support plan, one or more of the
 following procedures will apply:
 - 1. The staff member may continue on the Structured Support Level.
 - 2. The staff member may be placed in the Intensive Supervision Level.
 - 3. The staff member's continued employment may be reviewed.

The staff member shall be supported and counseled by the building administrator, Director of Human Resources and/or the Fairfield Education Association.

Intensive Supervision Level

If the evaluator has serious concerns about a staff member's performance and believes that the staff member is not meeting the accountability standards of the Fairfield Public Schools, then the administrator will notify the staff member that he/she will be placed in the Intensive Supervision Level. A special form entitled Intensive Supervision Evaluation Initial Placement Form (See Appendix K) will be issued to the staff member to advise him/her that the evaluation will continue and that improvement in performance must be shown. If improvement is not shown, termination of employment may result.

The Superintendent and the Director of Human Resources will be notified immediately when a staff member is place on the Intensive Supervision Evaluation and will receive copies of the Intensive Supervision Evaluation Form.

The Intensive Supervision Level will include the following steps:

- <u>Notice</u> The primary evaluator will provide formal written notice of *developing* or *below standard* performance. This notice must be specific as to what the concern(s) is and why it is considered to be ineffective. This can be at any time during the school year.
- <u>Target Setting</u> The primary evaluator has the responsibility of identifying the specific behaviors that the staff member must develop in order to demonstrate that he/she is effective in the areas that were considered *developing* or *below standard*.
- Action Plan An action plan that includes a timeline must be developed within ten days of
 notification. Failure to conscientiously follow the action plan may result in termination of
 contract.
- Assistance The evaluator is to offer reasonable assistance so that the staff member can improve his/her performance in the areas that were considered *developing* or *below standard*. The assistance may include, but is not limited to: positive suggestions, resource materials, professional development opportunities, and referral to other individuals or peer coaching. A time frame which allows the staff member adequate opportunity to improve his/her performance must be established.
- Resolution A written statement must be included on the Intensive Supervision Evaluation Final Review Form (see Appendix L) indicating that performance in the areas considered to be developing or below standard has improved and will continue to be monitored on the Fairfield Educator Evaluation Plan. If performance remains ineffective, termination may result.

For a staff member who does not demonstrate performance at the accomplished level or higher in the areas assessed while in the Intensive Supervision Level, one or more of the following procedures will apply:

- 1. The staff member may continue on the Intensive Supervision Level.
- 2. The staff member's continued employment will be reviewed and termination may result.

The staff member shall be supported and counseled by the building administrator, Human Resources Director and/or the Fairfield Education Association.

Career Development and Growth

Rewarding exemplary performance identified through the evaluation process with opportunities for career development and professional growth is a critical step in both building confidence in the evaluation system itself and in building the capacity of all educators.

Examples of such opportunities include, but are not limited to: observation of peers; mentoring early-career educators; participating in development of educator improvement and remediation plans for peers whose performance is *developing* or *below standard*; leading Professional Learning Communities; differentiated career pathways; and focused professional development based on goals for continuous growth and development.

EDUCATOR PRACTICE RELATED INDICATORS

The Educator Practice Related Indicators half of the Fairfield Educator Evaluation Plan evaluates the educator's knowledge of a complex set of skills and competencies and how these are applied in an educator's practice. It is comprised of two categories:

- Educator Performance and Practice, which counts for 40%; and
- Parent Feedback, which counts for 10%.

These categories will be described in detail below.

Category #1: Educator Performance and Practice (40%)

The Educator Performance and Practice category of the model is a comprehensive review of teaching practice against a rubric of practice, based on multiple observations. It comprises 40% of the summative rating. Following observations, evaluators provide educators with specific feedback to identify educator development needs and tailor support to those needs.

Educator Practice Framework

A committee comprised of Fairfield educators and administrators researched educator observation models for a framework of teaching practice and chose to incorporate Robert Marzano's *Causal Teacher Evaluation Model*. The model is aligned to the Connecticut Common Core of Teaching (see Appendix D for the crosswalk between the Marzano model and the CCT). The Fairfield committee decided this observation model is the best model to take our teaching practices to a higher level. The resulting rubric, *the Marzano Causal Teacher Evaluation Model* (see **Appendix E**), represents the most important skills and knowledge that educators need to successfully educate each and every one of their students.

The *Marzano Causal Teacher Evaluation Model* is organized into four domains, each with design questions and elements organized within. The model is not designed to evaluate educators on each and every one of the 60 elements each year. Rather it is a model to grow instructional practice. By far, the largest section of the model is Domain 1, Classroom Strategies and Behaviors. Domain 1 has three primary purposes:

- 1. A tool for evaluators to identify what they're seeing.
- 2. A tool for evaluators and educators to understand what should be seen as part of classroom instruction.
- 3. A tool to provide meaningful feedback to educators.

Domain 2 (Planning and Preparing), Domain 3 (Reflecting on Teaching) and Domain 4 (Collegiality and Professionalism) include the remaining elements of the model.

Connecticut Framework for Educator Evaluation and Support

Observation Process

Research, such as the Gates Foundation's *Measures of Effective Teaching* study, has shown that multiple snapshots of practice conducted by multiple observers provide a more accurate picture of educator performance than one or two observations per year. These observations don't have to cover an entire lesson to be valid. Partial period observations can provide valuable information and save observers precious time.

Observations in and of themselves aren't useful to educators — it's the feedback based on observations that helps educators to reach their full potential. All educators deserve the opportunity to grow and develop through observations and timely feedback. In fact, educator surveys conducted nationally demonstrate that most educators are eager for more observations and feedback that they can then incorporate into their practice throughout the year.

Therefore, in the Fairfield Educator Professional Growth Model:

- Each educator should be observed through both formal and informal observations according to the grid that follows on the next page.
 - o **Formal**: Mutually scheduled in-class observations or scheduled reviews of practice that last at least 30 minutes and are followed by a post-observation conference, which includes both written and verbal feedback.
 - o **Informal**: Non-scheduled observations or reviews of practice that last at least 10 minutes and are followed by written and/or verbal feedback.
 - o Non-Classroom Reviews of Practice: Because the new evaluation model aims to provide educators with comprehensive feedback on their practice as defined by the four domains of the *Marzano Causal Teacher Evaluation Model*, all interactions with educators that are relevant to their instructional practice and professional conduct may contribute to their performance evaluations. These interactions may include, but are not limited to, reviews of lesson/unit plans and assessments, planning meetings, data team meetings, professional learning community meetings, call-logs or notes from parent-educator meetings, observations of coaching/mentoring other educators, school-based activities/events and attendance records from professional learning activities.
- All observations should be followed by feedback, either verbal (e.g., a post-conference, conversation in the hallway) or written (e.g., via email, comprehensive write-up, quick note in mailbox) or both, within a week of an observation.
- In order to capture an authentic view of practice and to promote a culture of openness and comfort with frequent observations and feedback, it's recommended that the majority of observations be unannounced.

 Districts and principals can use their discretion to decide the right number of observations for each educator based on school and staff needs and in accordance with the Requirements for Educator Evaluation. A summary of requirements are below:

Educator Category	Requirements For Educator Evaluation
First and Second Year Educators	At least 3 formal in-class observations; 2 of which include a pre- conference and all of which include a post-conference
Below Standard and Developing	At least 3 formal in-class observations; 2 of which include a pre- conference and all of which include a post-conference
Accomplished and Exemplary	Educators will be divided evenly into three cycles, which represents a three-year span of time:
	Cycle A: One (1) formal in-class observation and one (1) formal review of practice
q.	Cycle B: At least three (3) informal, in-class observations and one (1) formal review of practice
	Cycle C: At least three (3) informal, in-class observations and one (1) formal review of practice
	For non-classroom educators, the above frequency of observations shall apply in the same ways, except that observation need not be in —classroom (they shall instead be conducted in appropriate settings).
	An educator in this category may receive a formal in-class observation if an informal observation or formal review of practice in a given year results in a concern about the teacher's practice.

Pre-conferences and Post-Conferences

Pre-conferences are valuable for giving context for the lesson and information about the students to be observed and for setting expectations for the observation process. Pre-conferences are optional for observations except where noted in the requirements described on page 20. A pre-conference can be held with a group of educators, where appropriate.

Post-conferences provide a forum for reflecting on the observation against the *Marzano Causal Educator Evaluation Model* and for generating action steps that will lead to the educator's improvement. An effective post-conference process has been used successfully in the Fairfield Public Schools and is structured as follows (See Appendix F for a Sample Post Observation Feedback Form):

- Opener: begins with an opening casual conversation for the educator to be more at ease
- part A: Supervisor Identified Strengths
 - Supervisor identifies several strengths noted during the observation by naming it using the language from the Marzano observation rubric
 - o Supervisor cites specific evidence
 - o Supervisor tells why it is important
 - o Limit these to just the first few important ones; leave some for the educator
- part B: Educator Identified Strengths
 - o Educator identifies strengths, or is prompted to do so
 - Focuses on educator decisions and actions
- part C: Growth Areas Identified by Educator
 - o Educator identifies growth area or is prompted to do so
 - Focus on educator decisions and actions
- part D: Growth Areas Identified by Supervisor
 - o Limited in number; focus on most important areas
 - o Brainstorm solutions if needed
 - o Provide evidence or ask a question
- Closure: Educator identifies key points

Classroom observations provide the most evidence for Domain 1 of the *Marzano Causal Teacher Evaluation Model*, but both pre-and post-conferences provide the opportunity for discussion of all four domains, including practice outside of classroom instruction (e.g., lesson plans, reflections on teaching).

Feedback

The goal of feedback is to help educators grow and become more effective with each and every one of their students. With this in mind, discussion between evaluators and educators should be clear and direct, following the Post Observation Feedback Protocol. Feedback should include:

- specific evidence and ratings, where appropriate, on observed components of the *Marzano Causal Teacher Evaluation Model*;
- prioritized commendations and recommendations for development actions;
- educator-led conversation for the majority of the post-conference
- next steps and supports the educator can pursue to improve his/her practice; and
- a timeframe for follow up.

Providing both verbal and written feedback after an observation is ideal, but school leaders are encouraged to discuss feedback preferences and norms with their staff.

Educator Performance and Practice Goal-Setting

As described in the Evaluation Process and Timeline section (pages 9-11), teachers develop a practice and performance goal that is aligned to the *Marzano Causal Teacher Evaluation Model*. This goal provides a focus for the observations and feedback conversations.

21. At the start of the year, each educator will work with his or her evaluator to develop their practice and performance goal through mutual agreement. The goal should have a clear link to student achievement and should move the educators towards *accomplished* or *exemplary* on the *Marzano Causal Teacher Evaluation Model*. Schools may decide to create a school-wide goal aligned to a particular element (i.e. 21. Organizing Students for Cognitively Complex Tasks) that all educators will include as their goal.

Goals should be SMART: S=Specific and Strategic M=Measurable A=Aligned and Attainable R=Results-Oriented T=Time-Bound

SMART Goal Example for Educator Performance and Practice (40%):

By June 2013, I will use higher-order thinking questioning and discussion techniques to actively engage at least 85% of my students in discussions that promote understanding of content, interaction among students and opportunities to extend thinking.

Additional information on SMART goals can be found in **Appendix A:** Template for Setting SMART Goals. Progress towards the goal and action steps for achieving progress should be referenced in feedback conversations following observations throughout the year. The goal and action steps should be formally discussed during the Mid-Year Conference and the End-of-Year Conference. Although the performance and practice goal is not explicitly rated as part of the Educator Performance and Practice category, progress on the goal will be reflected in the scoring of Educator Performance and Practice evidence.

Educator Performance and Practice Scoring

Individual Observations

Evaluators are not required to provide an overall rating for each observation, but they should provide ratings and evidence for the Framework components that were observed. During observations, evaluators should take evidence-based, scripted notes, capturing specific instances of what the educator and students said and did in the classroom. Evidence-based notes are factual (e.g., the educator asks: Which events precipitated the fall of Rome?) and not judgmental (e.g., the educator asks good questions). Once the evidence has been recorded, the evaluator can align the evidence with the appropriate component(s) on the rubric and then make a judgment about which performance level the evidence supports.

Summative Observation of Educator Performance and Practice Rating

At the end of the year, primary evaluators must determine a final Educator Performance and Practice rating and discuss this rating with educators during the End-of-Year Conference. The final educator Performance and Practice rating will be determined by the evaluator in a two-step process:

- 1) Evaluator and educator review and discuss evidence collected through observations and reviews of practice (e.g., team meetings, conferences) to reach consensus on holistic ratings for each of the four (4) Domains based on the descriptive language of the Marzano rubric. If the educator and evaluator do not agree on a Domain rating, the evaluator will determine the Domain rating based on a preponderance of the evidence.
- 2) The evaluator determines the final Educator Performance and Practice Rating based on the chart on page 25.

Each step is illustrated below:

1) Evaluator and educator holistically review and discuss evidence collected through observations and reviews of practice to reach consensus on holistic ratings for each of the four (4) Domains (see chart below).

By the end of the year, evaluators and educators should have collected a variety of evidence on educator practice from the year's observations and reviews of practice. Evaluators and educators then analyze the consistency, trends, and significance of the evidence to reach consensus on a holistic rating for each Domain. Some questions to consider while analyzing the evidence include:

Consistency: Does the evidence paint a clear, unambiguous picture of the educator's performance in this area over time?

Trends: Have I seen improvement over time that overshadows earlier observation outcomes? Have I seen regression or setbacks over time that overshadows earlier observation outcomes?

Significance: Are some data more valid than others? (Do I have notes or ratings from "meatier" lessons or reviews of practice where I was able to better assess this aspect of performance?) Are there extenuating circumstances that might have had an impact on the teacher's performance during the year?

Domain	Rating		
1	Accomplished		
2	Accomplished		
3	Accomplished		
4	Exemplary		

2) The final summative rating for the 40% area of Teacher Performance and Practice will be determined as follows:

Exemplary	Domain 1 is rated Exemplary. A combination of Exemplary, Accomplished and Developing ratings in Domains 2,3, and 4. No more than one Developing rating.
Accomplished	Domain 1 is rated Exemplary. A combination of Exemplary, Accomplished, Developing, and/or Below Standard ratings in Domains 2,3, and 4. OR Domain 1 is rated Accomplished. No more than one Below Standard rating in Domains 2, 3, and 4.
Developing	Domain 1 is rated Accomplished. Two or more other Domains are rated as Below Standard in Domains 2, 3, and 4. OR Domain 1 is rated Developing.
Below Standard	Domain 1 is rated Below Standard.

The summative Educator Performance and Practice category rating will be discussed during the End-of-Year Conference. This process can also be followed in advance of the Mid-Year Conference to discuss progress toward Educator Performance and Practice goals/outcomes.

Category #2: Parent Feedback (10%)

Feedback from parents will be used to help determine the remaining 10% of the Educator Practice Indicators focus area of the Fairfield Educator Evaluation Plan.

The process described below focuses on:

- (1) Conducting a whole-school parent survey (meaning data is aggregated at the school level);
- (2) Determining several school-level parent goals based on the survey feedback;
- (3) Educator and evaluator identifying **one** related parent engagement goal and setting improvement targets;
- (4) Measuring progress on growth targets; and
- (5) Determining an educator's summative rating. This Parent Feedback rating shall be based on four performance levels.

1. Administration of a Whole-School Parent Survey

Parent surveys should be conducted at the whole-school level as opposed to the educator-level, meaning parent feedback will be aggregated at the school level. This is to ensure adequate response rates from parents.

Parent surveys must be administered in a way that allows parents to feel comfortable providing feedback without fear of retribution. Surveys should be confidential and survey responses should not be tied to parents' names. The parent survey should be administered every spring and trends analyzed from year-to-year.

NOTE: For the school year 2013-2014, Fairfield schools will use results of the School Climate Survey, administered to parents in November 2012, for educators to use to set goals. Results from the survey were given to schools and the community during the winter of 2012. Linking the parent feedback this first year to the results of the School Climate Survey allows educators to set a goal to continue this important work. School Climate Surveys will be administered on alternate years, with the state model parent survey being used during years when the School Climate Survey is not administered. Any surveys used will be valid and reliable. Appendix C contains the School Climate Survey and the state model parent survey.

2. Determining School-Level Parent Goals

Principals and educators should review the parent survey results at the beginning of the school year to identify areas of need and set general parent engagement goals based on the survey results. Ideally, this goal-setting process would occur between the principal and educators (possibly during faculty meetings) in August or September so agreement could be reached on 2-3 improvement goals for the entire school.

3. Selecting a Parent Engagement Goal and Improvement Targets

After these school-level goals have been set, educators will determine through consultation and mutual agreement with their evaluators **one** related parent goal they would like to pursue as part of their evaluation. Possible goals include improving communication with parents, helping parents become more effective in support of homework, improving parent-educator conferences, etc. See the sample state model survey in **Appendix B** for additional questions that can be used to inspire goals.

Educators will also set improvement targets related to the goal they select. For instance, if the goal is to improve parent communication, an improvement target could be specific to sending more regular correspondence to parents such as sending bi-weekly updates to parents or developing a new website for their class. Part of the evaluator's job is to ensure (1) the goal is related to the overall school improvement parent goals, and (2) that the improvement targets are aligned and attainable.

4. Measuring Progress on Growth Targets

Educators and their evaluators should use their judgment in setting growth/improvement targets for the parent feedback category. Educators will measure and demonstrate progress on their growth targets. An educator will measure how successfully he/she implements a strategy to address an area of need (like the examples in the previous section).

5. Arriving at a Parent Feedback Rating

The Parent Feedback rating should reflect the degree to which an educator successfully reaches his/her parent goal and improvement targets. This is accomplished through a review of evidence provided by the educator and application of the following scale:

Exemplary	Accomplished	Developing	Below Standard
Exceeded the goal	Met the goal	Partially met the goal	Did not meet the goal

STUDENT OUTCOMES RELATED INDICATORS

The Student Outcomes Related Indicators half of the Fairfield Educator Evaluation Plan captures the educator's impact on students. Every educator is in the profession to help children learn and grow, and educators already think carefully about what knowledge, skills and talents they are responsible for nurturing in their students each year. As a part of the Fairfield Educator Evaluation process, educators will document those aspirations and anchor them in data.

Student Related Indicators includes two categories:

- Student Growth and Development, which counts for 45%; and
- Whole-school Student Learning which counts for 5% of the total evaluation rating.

These categories will be described in detail below.

Category #3: Student Growth and Development (45%)

Overview of Student Learning Objectives (SLOs)

Fairfield has selected a goal-setting process called **Student Learning Objectives (SLOs)** as the approach for measuring student growth during the school year.

While this process should feel generally familiar to school improvement planning, the Fairfield Educator Evaluation Plan will ask educators to set more specific and measureable targets than they may have done in the past, and to develop them through consultation with colleagues in the same grade level or teaching the same subject and through mutual agreement with supervisors.

The four SLO phases are described in detail below:

SLO Phase 1: SLO Phase I: Learn about this year's students

This first phase is the discovery phase, just before the start of the school year and in its first few weeks. Once educators know their rosters, they will access as much information as possible about their new students' baseline skills and abilities, relative to the grade level or course the educator is teaching. End-of-year tests from the prior spring, prior grades, benchmark assessments and quick demonstration assessments are all examples of sources educators can tap to understand both individual student and group strengths and challenges. This information will be critical for goal setting in the next phase.

SLO Phase 2: Set 1 SLO (goal for learning)

Each educator will write one SLO based on an area identified as a need in SLO Phase 1 (above) and on discussion with the educator's administrator. Assessments to measure student performance in the next step of IAGD development will be identified below.

In Phase II of the SLO process, educators will follow these four steps:

Step 1: Decide on the Student Learning Objective

The SLO will be a broad goal for student learning that is aligned to school improvement plans. It should address a central purpose of the educator's assignment and should pertain to a large proportion of his/her students. The SLO should reflect high expectations for student learning - at least a year's worth of growth (or a semester's worth for shorter courses) - and should be aligned to relevant state, national (e.g., common core), or district standards for the grade level or course as well as the district and school improvement plans.

Educators are encouraged to collaborate with grade-level and/or subject-matter colleagues in the creation of SLOs. Educators with similar assignments may have identical objectives although they will be individually accountable for their own students' results.

Step 2: Select Indicators of Academic Growth and Development (IAGDs)

An **Indicator of Academic Growth and Development (IAGD)** is the specific evidence, with a quantitative target, that will demonstrate whether the objective was met. Each SLO must include at least two IAGDs.

Each indicator should make clear (1) what evidence will be examined, (2) what level of performance is targeted, and (3) what proportion of students is projected to achieve the targeted performance level. Indicators can also address student subgroups, such as high or low-performing students or ELL students. It is through the Phase I examination of student data that educators will determine what level of performance to target for which students. The Template for Setting SMART Goals should be referenced as a resource for setting SLOs/IAGDs (Appendix A).

The Fairfield Educator Evaluation Plan adopts the definition of a **standardized assessment** from the Connecticut Guidelines for Educator Evaluation. That definition identifies that a standardized assessment is characterized by the following attributes:

- Administered and scored in a consistent or "standard" manner;
- Aligned to a set of academic or performance "standards;"
- Broadly-administered (e.g., nation-or statewide);
- · Commercially-produced; and
- Often administered only once a year, although some standardized assessments are administered two or three times per year.

Examples of Standardized Assessments recommended for use in the Fairfield Public Schools for educators whose students are not assessed by the state test are:

- Fountas and Pinnell Benchmark Reading Assessments
- Concepts About Print
- AIMS Web
- DRA 2
- Blue Ribbon
- Math Fluency
- Oral Counting
- Letter ID
- Number ID
- SBAC
- CAPT Science
- DRP
- Gates-MacGinitie
- LAS Links
- SAT
- SAT 2
- AP
- PE Mile run

Examples of Non-Standardized Assessments recommended for use in the Fairfield Public Schools are:

- Portfolios rated against a common rubric
- District Common Performance Tasks rated against a common rubric
- Writing Samples rated against a common rubric
- District Common Assessments rated against a common rubric
- Mid-Term Exam rated against a common rubric
- Final Exam rated against a common rubric
- Behavior checklist

Since indicator targets are calibrated for the educator's particular students, educators with similar assignments may use the same evidence for their indicators, but they would be unlikely to have identical targets. For example, all 4th grade educators might use the DRA assessment as their IAGD, but the performance target and/or the proportion of students expected to achieve proficiency would likely vary among 4th grade educators.

For example:

Educator Category	Student Learning Objective	Indicators of Academic Growth and Development (At least one is required)
2 nd Grade	My 22 students will demonstrate improvement in or mastery of reading skills by June 2014.	 All students assessed on the Fountas & Pinnell Benchmark Assessment who entered the 2nd grade at a "meets" or "exceeds" level will maintain or improve levels in June 2014 as identified by the Fairfield Public Schools Assessment Benchmarks Book. All students assessed on the Fountas & Pinnell Benchmark Assessment who entered 2nd grade at the "approaching" or "does not meet" level will advance one level in June 2014 as identified by the Fairfield Public Schools Assessment Benchmarks Book. All students assessed on the "Second Grade Core Reading Words" assessment entering 2nd grade achieving a stanine score of 5 or above will maintain or improve their stanine score in June 2014 as identified by the Fairfield Public Schools Assessment Benchmarks Book. All students entering 2nd grade achieving a stanine score of 4 or below will increase their stanine score by two stanines in June 2014 as identified by the Fairfield Public Schools Assessment Benchmarks Book.

One half (or 22.5%) of the indicators of academic growth and development used as evidence of whether goals/objectives are **met shall be based on the state test** for those teaching tested grades and subjects or another standardized indicator for other grades and subjects where available. When selecting indicators used to gauge attainment of goals/objectives, educators and their evaluators shall agree on a balance in the weighting of standardized and non-standardized indicators, to total to 45%.

Other related assessment data can be used to input a rating while waiting for state test results. If test results may have a significant impact on a final rating, the final rating may be revised before September 15.

*Exception for 2014-2015 school year: state test data will not be included in educator evaluation (pending US Department of Education approval of CT ESEA waiver request).

Step 3: Provide Additional Information

During the goal-setting process, educators and evaluators will agree to the following:

- the rationale for the objective and its connection to the school improvement plan;
- any important technical information about the indicator evidence (like timing or scoring plans);
- the baseline data that was used to set each IAGD;
- interim assessments the educator plans to use to gauge students' progress toward the SLO during the school year; and
- any training or support the educator thinks would help improve the likelihood of meeting the SLO.

Step 4: Submit SLOs to Evaluator for Approval

Educators and evaluators will confer during the goal-setting process to select mutually agreed-upon SLOs. When completed, the SLO is submitted to the evaluator for formal approval.

The evaluator will examine the SLO relative to three criteria described below. SLOs must meet all three criteria to be approved. If they do not meet one or more criteria, SLOs must be revised and resubmitted to the evaluator.

SLO Approval Criteria

Priority of Content

Objective is deeply relevant to educator's assignment and addresses a large proportion of his/her students, and is closely aligned to the school improvement plan.

Quality of Indicators

Indicators provide specific, measurable evidence. The indicators provide evidence about students' progress over the school year or semester during which they are with the educator.

Rigor of Objective/Indicators

Objective and indicator(s) are attainable but ambitious and taken together, represent at least a year's worth of growth for students (or appropriate growth for a shorter interval of instruction).

SLO Phase 3: Mid-Year Conference: Monitor students' progress

Once SLOs are approved, educators will monitor students' progress towards the objectives. They can, for example, examine student work products; administer interim assessments and track students' achievement related to the indicators. Educators will share their interim findings with colleagues during collaborative time (i.e data team meetings) and will discuss varied instructional strategies to achieve the objectives. They will keep their evaluator apprised of progress.

If an educator's assignment changes or if his/her student population shifts significantly, the SLOs can be adjusted during the Mid-Year Conference between the evaluator and the educator. Evaluators and educators should review evidence of student progress to date. The conversation should focus on what is working well, next steps, and a discussion of any adjustments or support needed. This is also an opportunity for a discussion of any concerns around regression of student data or any extenuating circumstances that might have arisen since the beginning of the year.

SLO Phase 4: Assess student outcomes relative to SLOs

At the end of the school year, educators will collect the evidence required by their indicators and submit it to their evaluator. Along with the evidence, educators will complete and submit a self-assessment that asks educators to reflect on the SLO outcomes by responding to the following four statements:

- 1. Describe the results and provide evidence for each indicator.
- 2. Provide your overall assessment of whether this objective was met.
- 3. Describe what you did that produced these results.
- 4. Describe what you learned and how you will use that going forward.

Evaluators and educators will review the evidence and the educator's self-assessment and determine one of four ratings to the SLO: Exemplary (Exceeded), Accomplished (Met), Developing (Partially Met), or Below Standard (Did Not Meet). These ratings are defined as follows:

Exemplary	All or most students met or substantially exceeded the target(s) contained in
(Exceeded)	the indicator(s).
Accomplished	Most students met the target(s) contained in the indicators within a few
(Met)	points on either side of the target(s).
Developing (Partially Met)	Many students met the target(s) but a notable percentage missed the target by more than a few points. However, taken as a whole, significant progress towards the goal was made.
Below Standard	A few students met the target(s) but a substantial percentage of students did
(Did Not Meet)	not. Little progress toward the goal was made.

The evaluator may score each IAGD separately, and then average those scores for the SLO score, or they can look at the results as a body of evidence regarding the accomplishment of the objective and score the SLO holistically.

The individual SLO/IAGD ratings and the student growth and development rating will be discussed during the End-of-Year Conference.

NOTE: For SLOs that include an indicator based on state standardized tests, results may not be available in time to score the SLO prior to the June 30 deadline. In this instance, if evidence for other indicators in the SLO is available, the evaluator can score the SLO on that basis. Or, if state tests are the basis for all indicators, then the educator's student growth and development rating will be based only on the results of the IAGD that is based on non-standardized indicators.

However, once the state test evidence is available, the evaluator is required to score or rescore the IAGD, then determine if the new score changes the educator's final (summative) rating. The evaluation rating can be amended at that time as needed, but no later than September 15.

^{*}Exception for 2014-2015 school year: state test data will not be included in educator evaluation (pending US Department of Education approval of CT ESEA waiver request).

Category #4:WHOLE-SCHOOL STUDENT LEARNING INDICATOR (5%)

The Fairfield Educator Evaluation Plan will include a "whole-school student learning indicator" as the 5% component of a educator's evaluation. This indicator reinforces the concept that all educators in a school building, whether a classroom teacher or student support specialist, contribute to the ultimate learning outcomes of ALL students in the school.

An educator's indicator rating shall be equal to the aggregate rating for multiple student learning indicators established for the principal's evaluation rating at that school. For most schools, this will be based on the school performance index (SPI), which correlates to the whole-school student learning on a principal's evaluation.

Exemplary	Accomplished	Developing	Below Standard
Exceeded the goal	Met the goal	Partially met the goal	Did not meet the goal

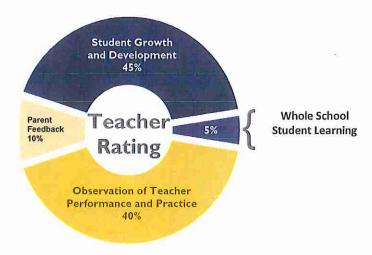

NOTE: If the whole-school student learning indicator rating is not available when the summative rating is calculated, then the student growth and development score will be weighted 50 and the whole-school student learning indicator will be weighted 0 (see Summative Educator Evaluation Scoring- page 36). However, once the state data is available, the evaluator should revisit the final rating and amend at that time as needed, but no later than September 15.

*Exception for 2014-2015 school year: state test data will not be included in educator evaluation; the educator's rating in this area will be based on the administrator's success of meeting targets established for their SLOs using locally determined measures in the 45% area (pending US Department of Education approval of CT ESEA waiver request).

SUMMATIVE EDUCATOR EVALUATION SCORING

Summative Scoring

The individual summative educator evaluation rating will be based on the four categories of performance, grouped in two major focus areas: Student Outcomes Related Indicators and Educator Practice Related Indicators.

Every educator will receive one of four performance ratings:

Exemplary – Substantially exceeding indicators of performance

Accomplished – Meeting indicators of performance

Developing – Meeting some indicators of performance but not others

Below Standard - Not meeting indicators of performance

The rating will be determined using the following steps:

- 1) Determine an <u>Educator Practice Related Indicators score</u> by combining the observation of Educator Performance and Practice score and the Parent Feedback score
- 2) Determine a <u>Student Outcomes Related Indicators score</u> by combining the Student Growth and Development score and Whole-school Student Learning indicator
- 3) Use Summative Matrix (below) to determine Summative Rating

Each step is illustrated below:

Total Educator Practice Related Indicators:

Determine an Educator Practice Related Indicators Rating by combining the observation of educator performance and practice score and the parent feedback score.

Use the chart below to find the Educator Practice Related Indicators Rating:

Observation of Teacher Performance and Practice (40%) Parent Feedback (10%)

		Observation of Teacher Performance and Practice Rating					
		Exemplary	Accomplished	Developing	Below Standard		
18	Exemplary	Exemplary	Accomplished	Developing	Below Standard		
Parent Feedback Rating	Accomplished	Exemplary	Accomplished	Developing	Below Standard		
	Developing	Accomplished	Accomplished	Developing	Below Standard		
	Below Standard	Accomplished	Accomplished	Developing	Below Standard		

Using the chart above, the educator's Total Educator Practice Rating would be "Accomplished."

This rating will be used in the final summative rating chart.

Total Student Outcomes Related Indicators

Determine a Student Outcomes Related Indicators rating by combining the student growth and development score and whole-school student learning indicator or student feedback score.

Use the chart below to find the Total Student Outcomes Related Indicators Rating:

Student Growth and Development (45%)
Whole School Student Learning Indicator (5%)

		Student Growth and Development Rating						
		Exemplary	Accomplished	Developing	Below Standard			
rning	Exemplary	Exemplary	Accomplished	Developing	Below Standard			
ol Student Lea Rating	Accomplished	Exemplary	Accomplished	Developing	Below Standard			
Whole School Student Learning Rating	Developing	Accomplished	Accomplished	Developing	Below Standard			
	Below Standard	Accomplished	Accomplished	Developing	Below Standard			

Using the chart above, the educator's Total Student Outcomes Rating would be "Accomplished."

This rating will be used in the final summative rating chart.

Determining the Summative Rating

Use the Summative Matrix to determine Summative Rating

Identify the rating for each focus area and follow the respective column and row to the center of the table. The point of intersection indicates the summative rating. For the example provided, the Educator Practice Related Indicators rating is *accomplished* and the Student Outcomes Related Indicators rating is *accomplished*. The summative rating is therefore *accomplished*. If the two focus areas are highly discrepant (e.g., a rating of *exemplary* for Educator Practice and a rating of *below standard* for Student Outcomes), then the evaluator should examine the data and gather additional information in order to determine a summative rating.

Summative Rating Matrix		Тог	tal Educator I	r Practice Rating			
		Exemplary Accomplished Developing S					
Exemplar		Rate Exemplary	Rate Exemplary	Rate Accomplished	Gather further information		
Total Student Outcomes Rating	Accomplished	Rate Exemplary	Rate Accomplished	Rate Accomplished	Rate Developing		
	Developing	Rate Accomplished	Rate Accomplished	Rate Developing	Rate Developing		
Total S	Below Standard	Gather further information	Rate Developing	Rate Developing	Rate Below Standard		

Adjustment of Summative Rating Summative ratings must be completed for all educators by the end of a given school year. Should state standardized test data not be available at the time of a final rating, a rating must be completed based on evidence that is available. When the summative rating for an educator may be significantly impacted by state standardized test data, the evaluator may recalculate the educator's summative rating when the data is available and submit the adjusted rating no later than September 15. These adjustments should inform goal setting in the new school year.

Definition of Effectiveness and Ineffectiveness

Effectiveness and ineffectiveness will be determined by utilizing a pattern of summative ratings derived from the new evaluation system. A pattern may consist of a pattern of one. The state model recommends the following patterns:

Novice educators shall generally be deemed effective if said educator receives at least two sequential *accomplished* ratings, one of which must be earned in the fourth year of a novice educator's career. A *below standard* rating shall only be permitted in the first year of a novice educator's career, assuming a pattern of growth of *developing* in year two and two sequential *accomplished* ratings in years three and four. Superintendents shall offer a contract to any educator he/she deems effective at the end of year four. This shall be accomplished through the specific issuance to that effect.

A post-tenure educator shall generally be deemed ineffective if said educator receives at least two sequential *developing* ratings or one *below standard* rating at any time.

The Fairfield Educator Evaluation Plan adopts the definition as stated in the state model, above.

Dispute-Resolution Process

A "Standing Review Committee on Educator Evaluation" shall be formed to resolve disputes where the evaluator and educator cannot agree on objectives/goals, the evaluation period, feedback on performance and practice or the professional learning plan. This committee will be composed of the Human Resources Administrator, district TEAM Facilitator, a representative from the Executive Board of the Fairfield School Administrator Association, a representative from the Executive Board of the FEA, one staff member from the Preschool level and two staff members from each of the levels (elementary, middle school, high school).

The educator will submit within five working days a Conflict Resolution Process form (See Appendix H) that clearly states the issue of disagreement and the particular level or part of the evaluation process that is open to disagreement to their primary evaluator with a copy to the Standing Review Committee on Educator Evaluation. The evaluatee and his/her primary evaluator will select a member of the Standing Review Committee on Educator Evaluation as a Resource Advisor.

The process will vary depending on the type and seriousness of the conflict. A possible sequence of meetings would include the following agendas:

- The Resource Advisor schedules to meet with each of the parties individually to discuss his/her views and perceptions about the conflict.
- The Resource Advisor schedules a meeting between the advisor and the two parties together where the advisor presents alternatives the two might use to resolve the conflict.
- Should these meetings succeed in resolving the conflict, there would be no further action beyond a notation by the advisor for his/her records that conflict resolution had been called for and that the conflict had been resolved to the mutual satisfaction of both parties. The

- records of the advisor would have no names and the records would only be a numerical indicator of the advisor's workload.
- Should these meetings not lead to a resolution of the conflict, the Resource Advisor would forward the original Conflict Resolution Process Form to either the Director of Elementary Education, Director of Secondary Education or Deputy Superintendent (depending on the staff member's assignment) for a resolution and final decision.

Appendix A: Template for Setting SMART Goals

The SMART goal-setting process ensures that every goal is measurable and clear. The advantages of the SMART goal-setting process are:

- Provides a structured approach to a complex task;
- Gives a clear framework for creating meaningful and achievable goals;
- Accommodates all kinds of goals;
- Is easy to teach others how to develop;
- Helps to define goals in terms that can be widely understood; and
- Requires thinking through the implementation as well as the outcome.

The characteristics of SMART goals are:

Specific and Strategic

o The goal should be well defined enough that anyone with limited knowledge of your intent should understand what is to be accomplished.

Measurable

o Goals need to be linked to some form of a common measure that can be used as away to track progress toward achieving the goal.

Aligned and Attainable

The goal must strike the right balance between being attainable and aligned to standards but lofty enough to impact the desired change.

Results-Oriented

o All goals should be stated as an outcome or result.

Time-Bound

o The time frame for achieving the goal must be clear and realistic.

SMART goals Dos and Don'ts

DO:	DON'T:
Create a plan	Expect to accomplish without effort
Start small	Focus on too much at once
Write it down	Forget to make a deadline
Be specific	Deal in absolutes
Track your progress	Expect perfection
Celebrate your success	Keep your goal on a shelf
Ask for support sooner than later	Beat yourself up over shortcomings
Make commitments	Try to accomplish it alone
	Forget that you CAN DO IT!

Appendix B: Sample Parent Feedback Survey All Grades

Pa	rt I: School Feedback	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree	I Don't Know
1.	I talk with my child's teacher(s) about my child's schoolwork.	0	0	0	0	0	0
2.	I talk with my child's teacher(s) about what I can do to help my child learn.	0	0	0	0	0	0
3.	I know how my child is doing in school before I get my child's report card.	0	0	0	0	0	0
4.	I have attended at least one meeting or event at school this year.	0	0	0	0	0	0
5.	I feel welcome at this school.	0	0	0	0	0	0
6.	My child is learning a lot in school this year.	0	0	0	0	0	0
7.	My child's teacher(s) have high expectations for my child.	0	0	0	0	0	0
8.	My child's teacher(s) talk to me about how my child is doing in class.	0	0	0	O	0	0
9.	My child's teacher(s) care about my child.	0	0	0	0	0	0

Part II: Background 10. What is your child's gender? O Male O Female 11. My child's grades are... O Mostly A's O Mostly B's O Mostly C's O Mostly D's O Mostly F's O I Don't Know/ Does Not Apply 12. What is the highest level of education that you have attained? O Graduate school O Not a high school graduate Some college College graduate O High school graduate 13. What is your child's race or ethnicity? O Asian O Hispanic or Latino O Black or African-O White American

O Native-Hawaiian or

Other Pacific-Islander

Two or More

Races/Ethnicities

O American-Indian

or Alaska Native

Appendix C: School Climate Survey

PARENT/GUARDIAN SURVEY

Before you begin, please read the following information.

You are being asked to complete this survey as part of a project to help all members of the school community (students, parents, and the adults who work at the school) understand how everyone feels about your child's school.

- As you respond to each item, focus on your thoughts and feelings based on your own personal experience with the school, as well as your perceptions of your child's experience as a student.
- There <u>are no right or wrong answers</u>—this is not a test! We just want to know how you feel. Your responses will provide us with important information to help your child's school become even better.
- All of your responses are <u>completely anonymous</u>. No one from the school will ever see your answers, and no identifying information (such as name, child's name or survey ID) will be recorded with your answers.
- All results will be reported to your school only in terms of how each population responded. Individual responses are never seen by your school.
- The survey should take you approximately 20 minutes to complete. Please try to respond to all items.

60.Participating in District and School Initiatives	p

It is useful to note that some elements in the Marzano Teacher Evaluation Model are not represented in the Connecticut criteria. Specifically, none of the elements from the following domains in the Marzano Teacher Evaluation Model are reflected in the Connecticut criteria:

- Domain I-I: Lesson Segments Involving Routine Events
 - Element3:Celebrating Success
 - o Element5:Organizing the Physical Layout of the Classroom
- Domain I-III: Lesson Segments Enacted on the Spot
 - oElement39: Demonstrating Value and Respect for Low Expectancy Students
 - oElement40: Asking Questions of Low Expectancy Students
 - oElement41: Probing Incorrect Answers with Low Expectancy Students

Connecticut State Department of Education's 2010 Common Core of Teaching: Foundational Skills

Domain 1. ContentandEssentialSkills

Teachers understand and apply essential skills, central concepts and tools of inquiry in their subject matter or field by:

- 1.1. Demonstrating proficiency in reading, writing, and mathematics skills;
- 1.2. Demonstrating discipline-specific knowledge and skills as described in the relevant national and state professional teaching standards;
- 1.3. Using developmentally appropriate verbal, non-verbal and technological communications;
- 1.4. Using technological and digital resources to promote learning, collaboration with colleagues and communication within a learning community;
- 1.5. Demonstrating understanding of how to use content area literacy skills to enable students to construct meaning through reading, writing, listening, speaking, viewing and presenting; and
- 1.6. Demonstrating understanding of how to use content area numeracy and analytical skills to enable students to problem solve, interpret and use data and numerical representations.

Domain 2. Classroom Environment, Student Engagement and Commitment to Learning

Teachers promote student engagement, independence and interdependence in learning by facilitating a positive learning community by:

- 2.1 Creating a class climate that is responsive to and respectful of the learning needs of students with diverse backgrounds, interests and performance levels;
- 2.2 Promoting engagement in and shared responsibility for the learning process and providing opportunities for students to initiate their own questions and inquiries;
- 2.3 Providing explicit instruction about social skills to develop students' social Competence and responsible and ethical behavior by using a continuum of proactive strategies that may be individualized to student needs;
- 2.4 Fostering appropriate standards of behavior that support a productive learning environment for all students; and
- 2.5 Maximizing the amount of time spent on learning by effectively managing routines and transitions.

Domain 3. PlanningforActiveLearning

Teachers plan instruction in order to engage students in rigorous and relevant learning and to promote their curiosity about the world at large by:

- 3.1 Determining students' prior knowledge to ensure that content instruction is at an appropriate level of challenge and differentiated to meet their learning needs;
- 3.2 Developing and organizing coherent and relevant units, lessons and learning tasks that build on students' prior knowledge, skills and interests and engage students in the work of the discipline;
- 3.3 Promoting the development and application of skills with conceptual understanding, and anticipating students' content misconceptions;
- 3.4 Selecting appropriate assessment strategies to monitor ongoing student progress;
- 3.5 Selecting or designing instructional strategies, resources and flexible groupings that provide opportunity for students to think critically and creatively, and solve problems;
- 3.6 Integrating learning activities that make real-world, career or global connections, and promote interdisciplinary connections whenever possible;
- 3.7 Designing or selecting academic and/or behavioral interventions through differentiated, supplemental, specialized instruction for students who do not respond to primary instruction alone;
- 3.8 Designing strategic questions and opportunities that appropriately challenge students and actively engage them in exploring the content through strategies such as discourse and/or inquiry-based learning; and
- 3.9 Including strategies for teaching and supporting content area literacy skills and, When appropriate, numeracy skills.

Domain 4. Instruction for Active Learning

Teachers implement instruction in order to engage students in rigorous and relevant learning and to promote their curiosity about the world at large by:

- 4.1 Using a variety of evidence-based strategies to enable students to apply and construct new learning;
- 4.2 Using technological and digital resources strategically to promote learning;
- 4.3 Leading students to construct meaning through the use of active learning strategies such as purposeful discourse and/or inquiry-based learning;
- 4.4 Varying the student and teacher roles in ways that develop independence and interdependence with the gradual release of responsibility to students;
- 4.5 Using differentiated instruction and supplemental interventions to support students with learning difficulties, disabilities and/or particular gifts and talents;
- 4.6 Monitoring student learning and adjusting teaching during instruction in response to student performance and engagement in learning tasks; and

4.7 Providing meaningful, appropriate and specific feedback to students during instruction to improve their performance.

Domain 5. Assessment for Learning

Teachers use multiple measures to analyze student performance and to inform subsequent planning and instruction by:

- 5.1 Understanding the different purposes and types of assessment that capture the complexity of student learning across the hierarchy of cognitive skills;
- 5.2 Using and/or designing a variety of formative and summative assessments and criteria that directly align with the learning objectives and value the diversity of ways in which students learn;
- 5.3 Using a comprehensive set of data that provides depth and breadth of understanding of student achievement at a particular point in time and over time;
- 5.4 Collaborating with colleagues to review and interpret assessment data to monitor and adjust instruction to ensure students' progress;
- 5.5 Providing students with assessment criteria and individualized, descriptive feedback to help them improve their performance and assume responsibility for their learning;
- 5.6 Supporting students' progress by communicating academic and behavioral performance expectations and results with students, their families and other educators;
- 5.7 Understanding the role that lack of opportunity to learn, lack of effective instruction, and assessment bias can play in the overrepresentation in special education of students with cultural, ethnic, gender and linguistic differences; and
- 5.8 Using academic, behavioral and health data to select and/or design interventions, and assist in the development of individualized education programs for students with disabilities.

${\bf Domain 6. Professional Responsibilities and Teacher Leadership}$

Teachers maximize support for student learning by developing and demonstrating professionalism, collaboration with others, and leadership by:

- 6.1 Continually engaging in reflection, self-evaluation and professional development to enhance their understandings of content, pedagogical skills, resources and the impact of their actions on student learning;
- 6.2 Seeking professional development opportunities to enhance skills related to teaching and meeting the needs of all students;
- 6.3 Collaborating with colleagues, administrators, students and their families to develop and sustain a positive school climate;

- 6.4 Collaborating with colleagues and administrators to examine student learning data, instructional strategies, curricula, and organizational structures to support continuous school and district improvement;
- 6.5 Guiding and coaching paraprofessionals and collaborating with colleagues, administrators, and special services staff to monitor the impact of instructional or behavioral support and interventions;
- 6.6 Proactively communicating in culturally respectful and sensitive ways with families in order to ensure their ongoing awareness of student progress and encourage opportunities to support their child's learning;
- 6.7 Understanding the legal rights of students with disabilities and their families within the intervention, referral, and individualized education plan process;
- 6.8 Understanding how one's race, gender and culture affect professional interactions with students, families and colleagues;
- 6.9 Using communication technology in a professional and ethical manner;
- 6.10 Collaborating with colleagues, administrators, and families in the development of individualized student success plans to address goal setting, personal and academic development, post-secondary and career exploration, and/or capstone projects; and
- 6.11 Conducting themselves as professionals in accordance with the Connecticut's Code of Professional Responsibility for Educators.

Appendix E: Marzano Causal Teacher Evaluation Model

The full rubric for the Marzano Causal Teacher Evaluation Model is on the district network for all educators to access. The document can be accessed on the Universal Drive, in the Teacher Evaluation Folder.

Appendix F: Post Observation Feedback Form

Post Conference Observation Feedback Form

Supervisor:	Subject:	School:
	de level:	
Standard	The second section of the sect	Evidence
Opener • Icebreaker, teacher put at ease		
 "A" Strengths - Supervisor Name it (CCT language) Give specific evidence Tell why important Limited to important ones, leave some for teacher 		
 "B" Strengths – Teacher Teacher identifies strengths or is prompted to do so Focus on teacher decisions 		
 "C" Growth Areas – Teacher Teacher identifies growth area or is prompted to do so Focus on teacher decisions 		
 "D" Growth Areas – Supervisor Provide evidence or ask a question Brainstorm solutions if needed Limited in number, focus on most important areas 		
Closure • Teacher identifies key points		
 A before B; C before D Body language shows active listening Questions are simple, clear, unambiguous After A, teacher does most of the talking Stays on topic throughout conference 		

Appendix G: End of Year Self-Assessment Form Name: Location: Position: Grade: Mentor Name: **Student Growth Indicators (45%)** Provide any evidence specific to each SLO/Goal and indicate your overall progress by rating "Attainment of the Objective" (i.e. a brief "description" of the data that you will bring to the summative meeting. Appendix M: Glossary

Academic Achievement

Defined as meeting a uniform and pre-determined level of mastery on subject or grade level standards. Achievement is a set point or "bar" that is the same for all students, regardless of where they begin.

CAPT

The Connecticut Academic Performance Test (CAPT) is a statewide assessment to be administered annually to all public school students in Grade 10. The test assesses four content areas: Mathematics, Science, Reading Across the Disciplines (based on a Response to Literature test and a Reading for Information test) and Writing Across Disciplines (based on two Interdisciplinary Writing tests and an Editing and Revising test). Each student who completes the CAPT receives an overall scale score for each of the four content areas. The skills and content assessed by the CAPT are based on Connecticut curriculum frameworks.

CCT

The Connecticut Common Core of Teaching (CCT) articulates essential knowledge, skills and qualities Connecticut teachers need to prepare students to meet the challenges of the 21st century. These foundational skills are grouped into six interrelated domains: (1) Content and Essential Skills, (2) Classroom Environment, Student Engagement and Commitment to Learning, (3) Planning for Active Learning, (4) Instruction for Active Learning, (5) Assessment for Learning; and (6) Professional Responsibilities and Teacher Leadership. The CCT was designed as a guide to help build teacher competence beginning with pre-service and continuing throughout a teacher's career.

Classroom Assessment

A teacher-developed assessment used by a single teacher for a particular course or group of students. A classroom assessment does not refer to an assessment created by and administered by groups of teachers.

CMT

The Connecticut Mastery Test (CMT) is a statewide assessment to be administered annually to all public school students in Grades 3 through 8. The test assesses four content areas: Reading, Writing, Mathematics, and Science (Grades 5 and 8 only). Each student who completes the CMT receives a total scale score for each content area. The skills and content assessed by the CMT are based on Connecticut curriculum frameworks.

Content Mastery Standard

A score on an assessment that a student must obtain in order to be considered as having achieved mastery. A content mastery standard is typically established somewhere between a passing score and 100%.

DPI

District Performance Index (DPI) indicates overall district-level student performance based on Connecticut Mastery Test (CMT) and Connecticut Academic Performance Test (CAPT) results.

Educator Evaluation and Support System

The evaluation and support system consists of multiple measures to paint an accurate and comprehensive picture of educator performance. All teachers and administrators will be evaluated in four categories, grouped in two major focus areas: Practice Related Indicators and Student Outcomes Related Indicators. The performance levels are defined as:

- Exemplary Substantially exceeding indicators of performance
- Accomplished Meeting indicators of performance
- Developing Meeting some indicators of performance but not others
- Below Standard Not meeting indicators of performance

End-of-Year Conference

The annual evaluation process between a teacher/administrator and evaluator (administrator or designee) is anchored in a minimum of three performance conversations that occur at the beginning, middle and end of the school year. It is expected that the End-of-Year conference will occur in May or June but no later than June 30th. During the End-of-Year conference, the teacher/administrator will present their self-assessment and related documentation for discussion and the evaluator will present his or her evaluation of the teacher/administrator's performance. These conversations are collaborative and require reflection and preparation by both the evaluator and the teacher/administrator in order to be productive and meaningful.

Goal-Setting Conference

The annual evaluation process between a teacher/administrator and evaluator (administrator or designee) is anchored in a minimum of three performance conversations that occur at the beginning, middle and end of the school year. It is expected that the Goal-Setting and Planning conference will occur on or before October 15th but must be completed prior to November 15th. A portion of the conference may include a brief orientation to the new teacher/administrator evaluation process but the main purpose of this conference is for the teacher/administrator and evaluator to discuss school and district priorities and the teacher/administrator's objectives and goals to ensure they are related to school and district priorities.

Growth

Improving skills required to achieve mastery on a subject or grade level standard over a period of time. Growth differentiates mastery expectations based on baseline performance.

IAGD

An Indicator of Academic Growth and Development (IAGD) is the specific evidence, with quantitative targets, that will demonstrate whether a Student Learning Objective (SLO) was met. Each SLO must include at least one IAGD. Each IAGD must make clear (1) what evidence will be examined, (2) what level of performance is targeted and (3) what proportion of students is projected to achieve the targeted performance level.

Mid-Year Check-In

The annual evaluation process between a teacher/administrator and evaluator is anchored in a minimum of three performance conversations that occur at the beginning, middle and end of the school year. The evaluator and teacher/administrator must complete at least one Mid-Year Conference at which they review progress on the teacher/administrator's goals and objectives to date. The Mid-Year Conference is an important point in the year for addressing concerns, reviewing results and adjusting goals and objectives as needed. Evaluators can deliver mid-year formative information on categories of the evaluation framework for which evidence has been gathered and analyzed. If needed, teachers/administrators and evaluators can mutually agree to revise goals and/or objectives.

Parent Feedback

A whole-school parent survey (data is aggregated at the school level) must be conducted each spring and trends analyzed from year-to-year to inform teacher practice. Parent surveys must be confidential and survey responses should not be tied to parents' names. Survey results may be used to identify a parent engagement goal and related improvement target.

Post-Conference

A post-conference follows a formal observation or review of practice and may or may not follow an informal observation or review of practice. Post-conferences provide a forum for reflecting on the observation/review of practice against the CT Framework for Teacher Evaluation and Support and for generating action steps that will lead to the teacher's improvement.

Pre-Conference

A pre-conference precedes a formal observation or review or practice and allows the teacher to provide the context for the lesson/practice session and information about the students to be observed. It is also an opportunity for the evaluator to set expectations for the observation process.

Professional Growth Plan

A Professional Growth Plan is co-created with mutual agreement between a teacher and his/her evaluator and serves as the foundation for ongoing conversations about the teacher's practice and impact on student outcomes. Professional learning opportunities identified in a Professional Growth Plan should be based on the individual strengths and needs of a teacher that are identified through the evaluation process.

School Assessment

Assessments developed by groups of teachers that are mandated or optional for use school-wide (e.g., end-of-course assessment written by science teaches and used in all chemistry courses in the school).

SLO

A Student Learning Objective (SLO) is an academic goal that teachers/administrators and evaluators set for groups of students. In the SEED Handbook, there are differences between how SLOs are defined within the teacher model and the administrator model. The table below outlines these differences.

Administrator SLOs

Administrator SLOs combine the three areas of teacher SLO into one SMART statement. They are written like a SMART goal and include target, measurement and time within a single SLO. They should:

- Align to district and school learning goals
- Provide a measure
- Be written in SMART format
- Focus on priority areas

Teacher SLOs

Teacher SLOs contain three component parts: **Broad goals** for student learning that address a central purpose, a rationale that explains why this is an important area of improvement, and at least one IAGD which is the specific evidence, with a quantitative target, that will demonstrate whether the objective was met.

SMART Goal

At the start of the school year, each educator will work with his or her evaluator to develop their practice and performance goal(s) and SLOs through mutual agreement. All goals should have a clear link to student achievement and school/district priorities.

Goals should be SMART:

S=Specific and Strategic

M=Measurable

A=Aligned and Attainable

R=Results-Oriented

T=Time-Bound

Smarter Balanced Assessments

Smarter Balanced Assessments go beyond multiple-choice questions to include extended response and technology enhanced items, as well as performance tasks that allow students to demonstrate critical-thinking and problem-solving skills. Performance tasks challenge students to apply their knowledge and skills to respond to complex real-world problems. They can best be described as collections of questions and activities that are coherently connected to a single theme or scenario. These activities are meant to measure capacities such as depth of understanding, writing and research skills, and complex analysis, which cannot be adequately assessed with traditional assessment questions. The performance tasks will be taken on a computer (but will not be computer adaptive) and will take one to two class periods to complete. The Smarter Balanced Assessments are aligned with the Common Core State Standards (CCSS) and will replace CMT and CAPT assessments.

<u>SPI</u>

SPI is the School Performance Index and indicates overall student performance in a school based on Connecticut Mastery Test (CMT) and Connecticut Academic Performance Test (CAPT) results.

Statewide Assessment

An assessment that is mandated for use state-wide. Currently, Connecticut's statewide summative assessment system consists of the Connecticut Mastery Test (CMT), the Connecticut Academic Performance Test (CAPT), the CMT/CAPT Skills Checklist and the CMT/CAPT Modified Assessment System (MAS).

Student Outcomes Related Indicators

An evaluation of a teacher's contribution to student academic progress, at the school and classroom level. This focus area is comprised of two categories:

- Student Growth and Development (45%) as determined by academic progress related to a teacher's student learning objectives (SLOs), and
- Whole-school Measure of Student Learning (5%) as determined by aggregate student learning indicators.

Teacher Observations

- Each teacher should be observed according to the grid on page 21 through both formal and informal observation.
 - o **Formal**: Mutually scheduled in-class observations or scheduled/unscheduled reviews of practice that last at least 30 minutes and are followed by a post-observation conference, which includes both written and verbal feedback.
 - o **Informal**: Non-scheduled observations or reviews of practice that last at least 10 minutes and are followed by written and/or verbal feedback.

Teacher Practice Related Indicators

An evaluation of the core instructional practices and skills that positively affect student learning. In the SEED model, this focus area is comprised of two categories:

- Observation of Educator Performance and Practice (40%) as defined in the Connecticut Framework for Teacher Evaluation and Support, which articulates four domains and eighteen components of teacher practice; and
- Parent Feedback (10%) on teacher practice through surveys.

Whole-School Student Learning Indicators

For districts that include whole-school student learning indicators in teacher evaluations, a teacher's indicator ratings shall be represented by the aggregate rating for the multiple student learning indicators established by the administrator's evaluation rating

Discovering what kids need to succeed

Profiles of Student Life:

APR - 8 2014

Attitudes & Behaviors

Your answers on this questionnaire will be kept strictly confidential. DO NOT put your name on this form. No one will be able to find out how you or anyone else answered. Your school will receive a report that combines many students' answers together. Therefore, no one will be able to connect your answers with your name.

This is not a test you take for school grades. You are just being asked to tell about yourself, your experiences, and your feelings. Please be as honest as you can.

IMPORTANT MARKING DIRECTIONS

- Please use a blue or black pen.
- Place an "X" in the appropriate box or boxes.

RIGHT WRONG

⋈ ⋈ ⋈

 To change an answer, completely black out the wrong answer and put an "X" in the correct box as shown below.
