Preparation instructions to include: ingredients to be added and amounts, cooking methods, time and temperature.

Store frozen up to 6 months, or refrigerated up to 7 days. Do not refreeze. This is a "heat and serve product" which may be reheated thawed or from frozen. To thaw, leave under refrigeration in the case 24 hours. Heat in trays (do not remove from oven-safe sleeves) in an oven preheated to 350°F. Conventional oven: frozen 15 - 20 min, thawed 12 - 15 min. Convection oven : frozen 12 - 15 min, thawed 8 - 10 min. Cook time may vary by oven type or load. Serve immediately or hold at 140°F or above for no more than 2 hours. To avoid "pinking", drain cooking juices from sleeve as soon as possible. P
