Superintendent's Report

Quarterly Financial Report

Mr. Dwyer asked that Board discussion focus on the issue of the increased Special Education costs as related to outplacements and reported that the meeting with the Board of Finance went well.

Ms. Munsell presented the Quarterly Financial Report, discussed the enclosure, and stated there is a projected \$1.4 million shortfall, largely due to increases in Special Education costs; this has resulted in a budget freeze for non-essential spending which does not affect the health, safety, or instructional needs to maintain programs; a hiring freeze for non-essential employees is currently in effect; overtime is limited to critical maintenance; subs are limited to coverage of essential employees for unavoidable situations; and administrators have been asked to estimate potential savings.

Dr. Title stated that capital purchases such as technology replacements may be deferred; professional development and curriculum writing may be put on hold; employees wishing to go to conferences must cover the full cost of the conference and substitute unless there is a contractual obligation; schools have been asked to limit inventory; maintenance has been asked to limit overtime; health, safety and maintenance issues will be addressed.

Dr. Title stated that help may be needed from the Town to cover the projected deficit and the Board of Finance has indicated a willingness to work together on this issue.

Board Discussion followed and Ms. Leonardi summarized key points in response to Board questions:

- a number of students rose to a level of need via the PPT process and mediated settlements
- there is a higher rate of students with mental illness and high level of emotional distress requiring a level of care not offered in our public schools
- work is being done to address these issues through consultations, evaluations, and school-based teams
- many districts are experiencing similar spikes in these types of needs and issues
- services required for these complex issues have never been offered in the district
- the district has discussed developing an in-district solution, however, there will always be a need to outplace some students
- Fairfield's overall prevalence rate is about 10%, well within national standards

Mr. Dwyer recommended a separate meeting on this topic should more information be required.

In response to Mr. Patten, Dr. Title stated the electric rates are based on Town estimates.

In response to Mr. Llewellyn, Ms. Leonardi stated that the special education budget is based on October of the prior year, on the total number of tuitions with estimated tuition rates; that the prior year's transfer of \$280,000 into Pupil Personnel Services could have been due to parts of evaluations, consultations, and tuition. Dr. Title stated that the complex excess cost calculation is unknown until the filing is complete, and this year many placements did not qualify for reimbursement.

In response to Mrs. Liu-McCormack, Ms. Leonardi stated that approximately 1100-1200 students are in Special Education with 89 students in outplacements; the predominant outplacement cost is tuition and transportation and is estimated at \$8.5 million.

Dr. Title stated that there are 2 streams of funding to off-set special education costs: the excess cost grant which is capped by the state, and federal funding that was affected by the sequester, costing the district \$150,000.

In response to Mr. Llewellyn's question regarding Food Services, Mr. Dwyer ruled that, in the interest of time, the Food Services portion of the Quarterly Report would be discussed at the January 21 meeting.

In response to Mr. Fattibene, Dr. Title stated that the district must end the year without a deficit, and there are still unknowns such as the weather.

Presentation of the Superintendent's 2014-2015 Operating Budget

Dr. Title presented a Powerpoint Report on the recommended operating budget for \$156,909,651 for Fiscal Year 2014-2015, which included slides showing 'Return on Investment for Program and Student Achievement'; 'Historical Data on Budget, Staffing and Enrollment'; and 'Budget Priorities'.

Mr. Dwyer asked that all budget questions be forwarded to Dr. Title well in advance of the next meeting so the staff has time to prepare; the first budget meeting will cover the income summary and food services, and the second budget meeting will cover the line item levels; the third meeting requires a vote and due to Town charter there can be no motions to postpone. Dr. Title stated that the budget book preparation is a huge undertaking by staff, and the budget book has won CABE's "Excellence in Educational Communication" Honorable Mention Award for the last three years.

Dr. Title explained the Memorandum of Understanding between the Town and the BOE regarding health insurance; that the agreement is if the Board of Education follows AON's recommendations and still has a shortfall, the Town will cover those expenses for that year and the deficit will get rolled over to the following year's operating budget.

Mrs. Liu-McCormack requested a copy of this agreement.

Mr. Llewellyn stated that he would like to make a motion to get the budget in Excel format. Mr. Dwyer ruled the motion out of order, and stated the Board has agreed to the current format. After Ms. Munsell stated that only the budget executive summary and support is in Excel and all else is in an Access Database, Mr. Llewellyn stated he would accept that format; both Mr. Llewellyn and Mr. Fattibene challenged the Chair's ruling.

Mr. Dwyer restated that the motion is out of order and that Mr. Llewellyn currently has a Freedom of Information Request pending before the Freedom of Information Commission regarding the format of how Fairfield Public Schools presents information; a Hearing for this was held on Monday where briefs have been requested from Mr. Llewellyn and Fairfield Public Schools, and that a ruling by the Board prior to the ongoing process would be a mistake.

Mr. Fattibene stated that he is unaware of the FOI details and that a format request, if it exists, is a reasonable request from a Board member, and that he doesn't recollect any Board action stating that the budget will be presented in a PDF format only.

Mr. Convertito then made a friendly amendment to his motion's wording to instead amend the main motion to approve the current business curriculum not including the Financial Literacy course and the Intro to Investing and Finance course, which the Board accepted by unanimous consent.
