To: Dr. Ann Clark, Superintendent of Schools
From: Jack Boyle, Deputy Superintendent
Anna Cutaia Leonard, Director of Elementary Education
Date: March 6, 2009
RE: **Proposed Redistricting Plan**

Attached are three (A, B, and C) redistricting proposals with proposed class arrays for the impacted schools. They move students:

- A. from Stratfield to McKinley;
- B. from Stratfield to McKinley, from McKinley to Jennings, the west side of the left side of the "butterfly" from Jennings to Burr, from North Stratfield to Jennings; and
- C. from Stratfield to McKinley, from McKinley to Jennings, the entire left side of the "butterfly" from Jennings to Burr, from North Stratfield to Jennings.

The proposals use the ADS projections (December, 2008), adding and subtracting the students in the impacted areas, promoting all students forward as indicated in the section allocations, **while retaining the 2009-10 ADS kindergarten projections in tact.** The advantages of these plans are:

1. They are doable. The plans can be implemented in August 2009.
2. They reduce the overcrowding at Stratfield Elementary School for both the short term and the long term.
3. All fifth grade students can be grandfathered. The fifth grade students in the redistricted area moving from McKinley to Jennings can be given the choice as to which middle school to attend, that is, Fairfield Woods with transportation or Roger Ludlowe without transportation, as is past practice.
4. Some plans reduce the need for staffing and classroom space from the 7 included in the proposed 2009-10 budget to as many as 9.
5. The plans better balance the utilization of elementary school space on the eastern part of the school district, moving from a range of 81% -108% to 91%-95%.
6. The plans give the school district the opportunity to utilize the added space at Roger Sherman and Osborn Hill Elementary Schools before making any changes in the attendance boundaries on the western side of the district.
7. The plans better balance the utilization of school space at the middle school level by reducing the number of students at Roger Ludlowe Middle School while increasing the number of students at Fairfield Woods Middle School.
8. The plans do not impact the realignment of the middle school feeder pattern, which may be necessary as the capacities of individual middle schools are increased.

In addition, we have included class arrays in the event the Board chooses to move the present grade three from Stratfield to either McKinley or Burr.

DRAFT
